After publishing the [TOP40 Best VPN's list](#), we decided to make a side by side TOP10 VPN list, so not only making the list narrower, but also making the choice and comparison much easier for you. We reviewed and ranked each VPN service by installing the premium version of each VPN's app, checking its DNS and WebRTC leaks, checking apps and platforms compatibility, checking app's interface and user-friendliness, number of simultaneous connections at the same time, logging policy and jurisdiction, streaming performance, torrenting and P2P file sharing support, live chat and customer support knowledge and friendliness, money-back duration and refund policy, privacy and security features, website interface and user-friendliness, and finally we ranked them by measuring mentioned features alongside the price. Unfortunately, most of the users who are looking for a VPN service, only look at the number of servers and speed ranking lists, which is not a good way to choose.
