Basic Java Interview Questions And Answers

10. How does bitwise (~) operator work ?
Ans: It converts all the 1 bits in a binary value to 0s and all the 0 bits to 1s, e.g
11110000 coverts to 00001111

11. Can shift operators be applied to float types ?
Ans: No, shift operators can be applied only to integer or long types

12. What happens to the bits that fall off after shifting ?
Ans: They are discarded

13. What values of the bits are shifted in after the shift ?
Ans: In case of signed left shift >> the new bits are set to zero. But in case of signed right shift it takes the value of most significant bit before the shift, that is if the most significant bit before shift is 0 it will introduce 0, else if it is 1, it will introduce 1

14. What are access modifiers ?
Ans: These public, protected and private, these can be applied to class, variables, constructors and methods. But if you donï¿½t specify an access modifier then it is considered as Friendly

15. Can protected or friendly features be accessed from different packages ?
Ans: No when features are friendly or protected they can be accessed from all the classes in that package but not from classes in another package

16. How can you access protected features from another package ?
Ans: You can access protected features from other classes by subclassing the that class in another package, but this cannot be done for friendly features

17. What are the rules for overriding ?
Ans: Private method can be overridden by private, friendly, protected or public methods. Friendly method can be overridden by friendly, protected or public methods. Protected method can be overridden by protected or public methods. Public method can be overridden by public method

Ans: No the reference cannot be change, but the data in that object can be changed

19. Can abstract modifier be applied to a variable ?
Ans: No it is applied only to class and methods

20. Can abstract class be instantiated ?
Ans: No abstract class cannot be instantiated i.e you cannot create a new object of this class
