Modern Mathematics Dirk De Bock,2023-03-08 The international New Math developments between about 1950
through 1980 are regarded by many mathematics educators and education historians as the most historically important
development in curricula of the twentieth century It attracted the attention of local and international politicians of teachers
and of parents and influenced the teaching and learning of mathematics at all levels kindergarten to college graduate in
many nations After garnering much initial support it began to attract criticism But as Bill Jacob and the late Jerry Becker
show in Chapter 17 some of the effects became entrenched This volume edited by Professor Dirk De Bock of Belgium
provides an outstanding overview of the New Math modern mathematics movement Chapter authors provide exceptionally

high quality analyses of the rise of the movement and of subsequent developments within a range of nations The first few chapters show how the initial leadership came from mathematicians in European nations and in the United States of America The background leaders in Europe were Caleb Gattegno and members of a mysterious group of mainly French pure mathematicians who since the 1930s had published under the name of a fictitious Nicolas Bourbaki In the United States there emerged during the 1950s various attempts to improve U S mathematics curricula and teaching especially in secondary schools and colleges This side of the story climaxed in 1957 when the Soviet Union succeeded in launching Sputnik the first satellite Undoubtedly this is a landmark publication in education The foreword was written by Professor Bob Moon one of a few other scholars to have written on the New Math from an international perspective The final epilogue chapter by Professor Geert Vanpaemel a historian draws together the overall thrust of the volume and makes links with the general history of curriculum development especially in science education including recent globalization trends *Catalogue* Ghana Book Publishers Association,1993 The Farfaru Journal of Multi-disciplinary Studies ,2009 **Ilorin Journal of Education** ,2002-12 **National Mathematical Sciences Summit and Annual Lecture** ,2000 **School Science and Mathematics** ,1921 **"The" Athenaeum** ,1871 Educational Challenges in Africa for the 21st Century Mrs. M.
