How Greek Tragedy Works Brian Kulick,2020-12-30 How Greek Tragedy Works is a journey through the hidden meanings and dual nature of Greek tragedy drawing on its foremost dramatists to bring about a deeper understanding of how and why to engage with these enduring plays Brian Kulick dispels the trepidation that many readers feel with regard to classical texts by equipping them with ways in which they can unpack the hidden meanings of these plays He focuses on three of the key texts of Greek theatre Aeschylus Agamemnon Euripides The Bacchae and Sophocles Electra and uses them to tease out the core principles of the theatre making and storytelling impulses By encouraging us to read between the lines like this he also enables us to read these and other Greek tragedies as artists manifestos equipping us not only to understand tragedy itself but also to interpret what the great playwrights had to say about the nature of plays and drama This is an indispensable guide for anyone who finds themselves confronted with tackling the Greek classics whether as a reader scholar student or director

Classical Reception Anastasia Bakogianni,Luis Unceta Gómez,2024-07-22 In a time of acute crisis when our societies face a complex series of challenges race gender inclusivity changing pedagogical needs and a global pandemic we urgently need to re access the nature of our engagement with the Classical World This edited collection argues that we need to discover new ways to draw on our discipline and the material it studies to engage in meaningful ways with these new academic and societal challenges The chapters included in the collection interrogate the very processes of reception and continue the work of destabilising the concept of a pure source text or point of origin Our aim is to break through the boundaries that still divide our ancient texts and material culture from their reception and interpretive communities Our contributors engage with these questions theoretically and or through the close examination of cultural artefacts They problematise the concept of a Western elitist canon and actively push the geographical boundaries of reception as both a local and a global phenomenon Individually and cumulatively they actively engage with the question of how to marshal the classical past in our efforts to respond to the challenges of our mutable contemporary world
