The Business Model Canvas as a Tool of Marketing Mix

Anastazia Spajic, 2021-09-09 Essay from the year 2020 in the subject Business economics Offline Marketing and Online Marketing grade 1-7 University of Applied Sciences Essen language English abstract Success a catchphrase that plays a significant role in today's society. Since success must be visible nowadays and the diligence behind it has lost importance many entrepreneurs are under very high pressure to perform. They are therefore faced with high challenges that they have to overcome. One of the challenges is to increase the value of the company so every entrepreneur must be clear about how much the respective company is worth. In order to run a company successfully and to achieve success automatically it is of particular importance for company managers to have a comprehensive understanding of the functional processes of the company. In order to understand these extremely important functional processes there is the so-called Business Model Canvas which can help to better understand. The Business Model Canvas acts as a planning tool for designing new business models or for revising older business models. The planning tool was developed by Alexander Osterwalder. The concept was first introduced in the book Business Model Generation A Handbook for Visionaries Game Changers and Challengers written by Osterwalder and co-author Yves Pigneur. In the meantime the book has even become a bestseller which of course speaks for the concept. The main target group of the literature are entrepreneurs whose aim is to bring their ideas to the market as innovative competitive projects. In the further course of this work the Business Model Canvas will first be defined in detail and its functionality will be explained. Then another planning tool is introduced called Marketing Mix. This is also defined and its procedure is described. This detailed description of both tools is very important to understand their connection. The last section serves to explain why the business model canvas is a tool for creating the marketing mix.

Implementation of the Start-Up Company 'Strumpfbödy' on the Basis of the Business Model Canvas

Friederike Berg, 2019-11-27 Seminar paper from the year 2015 in the subject Business economics Company formation Business Plans grade 1-6 University of Cooperative Education Ravensburg language English abstract This paper shows the implementation of the business model Canvas with reference to a specific example. It describes how we came up with the idea of the new start-up company which is called Strumpfbödy. In the 19th century machine-made cotton stockings became available for women. After World War I 1914-1918 short skirts were fashionable and long silk stockings were worn again. With the discovery and ultimate use of Dupont Nylon in the late 30s and early 40s the primacy of silk in women's hosiery waned. Silk was ultimately replaced by nylon after the war. Nylon stockings which became popular after World War II 1939-1945 and

completely replaced the silk stocking usually had seams until the late 1960s They were knitted flat and fully fashioned which means that they were shaped to fit the leg like modern sweaters By decreasing the number of stitches as the stocking was knit towards the ankle a garment was created that was knit to fit By the early sixties fully fashioned or seamed stockings were rapidly replaced by the modern reinforced heel and toe seamless stockings In the 1960s when skirts were worn very short many women began to wear tights pantyhose instead of stockings To show a bit of stocking was no longer accepted and while stockings fought for market share by becoming extremely long they became nearly extinct as pantyhose gained in popularity For much of the 20th century pantyhose were an essential component of any polished woman s outfit But then many Gen X and Boomers stopped wearing pantyhose years ago dismissing them as uncomfortable and easily ruined by runs Most Millennial women have never even worn them and thanks to more casual office wear they don t need to in most offices The majority of the leading brands of pantyhose and nylons in the United States have to struggle with this development

Therefore the market needs a new innovation which will be described in the following paper **Business Model Renewal: How to Grow and Prosper by Defying Best Practices and Reinventing Your Strategy** Linda Gorchels,2012-03-23

Forget business as usual Don t believe everything you read about best practices There is no magic bullet When your market changes you have to change your strategy and take control of your own success You have to renew your business model In a global market that is constantly evolving you can t expect magic bullets or best practices or any stand alone business philosophy that many books and gurus offer to guide your company through good times and bad Instead you need to take an active role in reviewing and retooling your strategies You need to stop thinking business as usual You need Business Model Renewal a groundbreaking book that provides a language and multiple frameworks for how to think about and implement business model reinvention A full range guide to synthesizing and applying the most up to date thinking in business today Business Model Renewal challenges you to re evaluate your methods rethink your options and reignite your organization Constantly challenging the mindset of tried and true numbers based solutions such as market share financials and metrics Gorchels integrates both traditional concepts and cutting edge ideas to avoid the usual one size fits all approach that can stifle a company s growth You ll learn how to build a custom made business model that encompasses the totality of how your company produces value including design infrastructure culture operations and more You ll learn how to adapt to newest emerging technologies how to cope with the biggest market fluctuations how to serve the latest demographic shifts and how to plan ahead for your company s future Envisioning business model renewal efforts drives leaders and managers to deal with the ambiguity of future thinking Shifts in technology market needs and competitive arenas can never be known precisely but must nevertheless be anticipated Scenario planning and other group based collaborative efforts to study the future are therefore necessary components of business model renewal So too is corporate culture decision making business model portfolio design and change management That s why the frameworks in this book touch on all of these facets Business Model

Renewal won't give you seven proven steps, five key principles, or even 10 irrefutable laws. But it will challenge you to do the hard work of broadening the perspectives of your firm, the ecosystem in which it exists, the role of your personal leadership, and the followership within your corporate culture. *Managing and Using Information Systems* Keri E.
