

CAD and Colour Ways

I know that this colour scheme does not fit in with my theme, Aztec, but I wanted to experiment with the program (Adobe Photoshop) some more and I was pleased with how the colours came out, it looks quite nice.

In industry Computer aided design (CAD) is used to help decide the overall colour and look of a product. It makes choosing colours a lot easier, as it lets you change the colour without having to re-draw the design. It can also aid with changing the size of the product and designing the patterns, as well as the pattern lay to find out the best way to utilize space and area of fabric.

Computer controlled weaving looms demonstrate another use of technology in the Textile industry, as well as automatic pattern lays and cutting, and computer labelling.

Again I know that this colour doesn't fit the Aztec theme but I wanted to test this colour especially. I should have done a darker purple for the main dress as this may have made the dress fit more. In Aztec civilisation, there were many precious jewels and the dark purple would imitate that.

I have chosen these five colours as they do fit with my theme, this is because they are all earthy and the Aztec's were a culture who lived close to the earth, most of the designs have a gold waist tie and this is because it complements the main fabric colour and because the Aztec culture was invaded by Spain for its gold and riches. I especially like the cream design and I thought to try this colour because I remember for my comparative shop that many of the "Tehuacal" and "Aztec" products that they were white or cream and other pale colours. The red is particularly striking as if I were to make another dress of this design I would definitely use this colour, but for this time I will use the top. Orange design because it reminds me of terracotta and earth which too is very well.

For my Colour ways I used Adobe Photoshop elements 1.1.
