New Maritime Business

Byoung-Wook Ko, Dong-Wook Song, 2021-11-18 This book provides a response to the unexpected challenges imposed on every aspect of today's maritime business. All chapters of this book are concerned with the single challenge facing the maritime business world that is uncertainty. Each chapter deals with a specific area of the maritime business community in an effort to better understand the complicated markets to seek for a solution of economic or financial sustainability under the pressure of climate changes to discuss technology as an option for the future and finally to show how to utilise the big data set for better informed decision and policymaking that used to be unfeasible in terms of scale and capacity. It is hoped that all those endeavours are considered as the first small step towards practically transforming the industry in line with Schumpeter 1943 as well as academically changing a paradigm of thinking and scientific discovery in line with Kuhn 2012 so that the maritime industry is better informed and prepared and can greatly contribute to human lives.
