

# Components of a Document Management System

# Document Management System Project

**LP Steffe**

## **Document Management System Project:**

Document Management System Hosar Jamal Raheem,2011 This project is a desktop application about how to manage documents which is called document management system This desktop application system gives the user the capability of putting their documents in a way that can be retrieved easily by creating paths through the database and to create records of the documents that exist to show that they are organized in the correct way The objective was to fulfill the customer s need by creating a system that is able to perform the mentioned works Another reason behind creating this application is to be able to develop the personal skills in different IT terms to be able to use them and develop them more in the future as a result the findings that I have learned during the process of building this application were assisting in a lot of aspects and increased the skills for being able to build such systems more efficiently

**Project Management for Mining, 2nd Edition** Robin J. Hickson,Terry L. Owen,2022-02-01 Before You Put the First Shovel in the Ground This Book Could Be the Difference Between a Successful Mining Operation and a Money Pit Opening a successful new mine is a vastly complex undertaking entailing several years and millions to billions of dollars In today s world when environmental and labor policies regulatory compliance and the impact of the community must be factored in you cannot afford to make a mistake The Society for Mining Metallurgy Exploration has created this road map for you Written by two hands on in the trenches mining project managers with decades of experience bringing some of the world s most successful profitable mines into operation on time within budget and ethically Project Management for Mining gives you step by step instructions in every process you are likely to encounter It is in use as course material in universities in Australia Canada Colombia Ghana Iran Kazakhstan Peru Russia Saudi Arabia South Africa the United Kingdom as well as the United States In addition more than 100 different mining companies have sent employees to attend seminars conducted by authors Robin Hickson and Terry Owen sessions all based around the material within this book In the years following the first edition the authors gratefully received a bevy of excellent suggestions from some 2 000 readers in over 50 countries This helpful reader feedback coupled with written evaluations from the more than 400 seminar attendees has been an unparalleled source of improvement for this new book This second edition is a significant accomplishment that includes 5 new chapters substantial updates to the original 34 chapters and 56 new or updated figures flowcharts and checklists that every project manager can use

**Project Management for Facility Constructions** Alberto De Marco,2018-03-23 This book describes principles quantitative methods and techniques for financing planning and managing projects to develop a variety of constructed facilities in the fields of oil gas power infrastructure architecture and the commercial building industries It is addressed to a broad range of professionals willing to improve their project management skills and designed to help newcomers to the engineering and construction industry understand how to apply project management to field practice Also it makes project management disciplines accessible to experts in technical areas of engineering and construction In education this text is suitable for undergraduate and graduate

**Automatic extraction and processing of document references** Kathrin Eichler, 2010-10-13 Master s Thesis from the year 2007 in the subject Computer Science Applied grade 1 0 University of Sunderland School of Computing and Technology language English abstract While reading documents you often encounter text passages advising you to refer to other documents for more information about a specific topic These references to other documents are particularly common in technical documents written for the sole purpose of providing the reader with as much relevant information as possible without rephrasing information that can be found elsewhere Knowing how the documents in a system are interrelated i e which other documents a document refers to or is referred by can be extremely helpful when trying to get access to relevant information A typical example of such a knowledge net providing information about document relations is CiteSeer a digital library of academic literature For each document in the library system CiteSeer displays lists of related documents such as a list of documents that the current document cites as well as a list of documents that the current document is cited by The assumption that inspired this thesis is that such lists are not only helpful when reading academic literature but could also assist a reader of technical documents stored in a company s document management system The idea was thus to extend an existing document management system by displaying for each document stored in the system a list of links to documents that the current document refers to As information about how the documents in this system are interrelated was not available the focus of the project underlying this thesis was on the first step towards solving this task automatically analyzing documents in order to extract names of related documents Once all document names mentioned in a document have been extracted the next step would then be to search for these documents in the system s database and in case they have been successfully found create links to the respective documents The outcome of the project was a system that performs the extraction task It is based on Conditional Random Fields a machine learning technique introduced by Lafferty et al 2001 and is able to extract document names from unseen documents achieving high precision scores 88% and acceptable recall scores 65% on a test dataset The implementation is based on a Java package provided by Sarawagi Cohen 2005 which was adapted and extended to suit the nature of the task As the approach is based on supervised learning the project also involved the generation of appropriate training data

**Proceedings - Project Management Institute** Project Management Institute. Seminar/Symposium, 1992

**Fundamentals of Project Management** Rory Burke,2010 Fundamentals of Project Management explains how to use the latest project management planning and control tools and techniques used by the planning software the APM BoK 5ed the PMBOK 4ed and the unit standards level 4 The text uses plenty of worked examples and exercises to explain how to use all the body of knowledge topics and particularly the Project Management Process and the Project Management Plan Target Market Project managers new to project management who are managing projects of limited complexity Project team members who are responsible for performing all the calculations reporting and the administration functions Contractors suppliers and consultants who participate in projects Support Material An INSTRUCTOR GUIDE and POWERPOINTS SLIDES are available upon request

**Building an ASP.NET Intranet** Kourosh Ardestani,2003-08-29 The authors base the books sample intranet on Microsofts free best practices example the IBuySpy Portal and teach you to quickly create an application that exploits the advanced features of ASP NET A full explanation of the IBuySpy Portal architecture is provided which allows you to maximize product usage Further the authors explore customizing existing portal modules and even build some of their own In the course of reading you will acquire a breadth of techniques for ASP NET development from effectively using stored procedures to creating an advanced user interface with ASP NET Web Controls
