Foundational Principles of Geriatric Physiotherapy Management Ed King, 2026-01-16 *The British National Bibliography* Arthur James Wells, 2002 *Trends in Long-term Care* United States. Congress. Senate. Special Committee on

Aging. Subcommittee on Long-Term Care,1969 **Trends in Long-term Care: Washington, D.C. (June 15, 1971)**
United States. Congress. Senate. Special Committee on Aging. Subcommittee on Long-Term Care,1971 **Rehabilitation
of Older People** Amanda J. Squires,2013-11-11 Attitudes to rehabilitation of older people particularly in departments
specializing in care of the elderly have become increasingly positive in recent years A growing number of professionals see
the speciality as a necessary career experience and this needs encouragement if the professions are to be prepared for the
increasing number of older people who will require help from their members The purpose of this book is to bring together the
skills and experience of experts in several fields of rehabilitation to provide a primer for those needing the knowledge of how
to manage the older person in whatever environment or speciality they present Readers will be able to enhance their own
knowledge already gained in a variety of fields and play an immediate part in the team The information will also be of value
to interested carers agencies contributing to the widened provision of service to older people and their purchasers The
continuing transformation of healthcare delivery world wide resulting from changing user and provider expectations and
government policies is altering approaches to and delivery of rehabilitation services These current and envisaged future
changes are addressed by each discipline using the UK National Health Service as an example **Geriatric Medicine** C.K.
Cassel,J.R. Walsh,2012-12-06 With the appearance of a textbook as comprehensive as this one it is clear that the field of
geriatrics is coming of age The broad scope of these volumes shapes a substantial answer to the question What is geriatrics
and why should we be interested in it As I see it there are at least five reasons First the scientific or intellectual reason
gerontology is the study of aging from the biologic psychological and social perspectives There is increasing interest in the
fascinating insights into the biologic mechanisms of aging errors in protein synthesis DNA repair mechanisms alterations of
the neuroendocrine system changes in the immune system genetic controls and somatic mutations Second the demographic
reason this is the century of old age There has been a 26 year gain in the average life expectancy This gain compares with
that acquired from 3 000 years B C the Bronze Age to the year 1900 which was about 29 years Therefore in one century
there has been a gain in the average life expectancy almost equal to 5 000 previous years of human history In 1830 one of
three newborn infants survived beyond 60 years of age *Learning Disability* Jeanette Rennie,2007-04-04 This is an updated
version of a comprehensive a resource for health professionals working with people primarily adults who have learning
disabilities intellectual disabilities It will provide a comprehensive overview of the diverse approaches to treatment and
management issues as well as methods to help them achieve the rehabilitation aims including the usage of non healthcare
facilities Split into three sections the book covers 1 Underlying theory 2 Assessment 3 Practical methods of physical
treatment and management Combines history and the theory underlying learning disability and its associated conditions
assessment and practical physical treatment Achieves carefully assessed aims through methods appropriate to the individual
client Funding suggestions for working in non healthcare situations Features a breadth of content that also appeals to non
