Amato, Federica Fucito, 2020-10-20 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides a practical analysis of criminal law in Italy An introduction presents the necessary background information about the framework and sources of the criminal justice system and then proceeds to a detailed examination of the grounds for criminal liability the justification of criminal offences the defences that diminish or excuse criminal liability the classification of criminal offences and the sanctions system Coverage of criminal procedure focuses on the organization of investigations pre trial proceedings trial stage and legal remedies A final part describes the execution of sentences and orders the prison system and the extinction of custodial sanctions or sentences Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for criminal lawyers prosecutors law enforcement officers and criminal court judges handling cases connected with Italy Academics and researchers as well as the various international organizations in the field will welcome this very useful guide and will appreciate its value in the study of comparative criminal law

Exclusionary Rules in Comparative Law Stephen C. Thaman, 2012-12-31 This book is a comparative study of the exclusion of illegally gathered evidence in the criminal trial which includes 15 country studies a chapter on the European Court of Human Rights and a comparative synthetic conclusion No other book has undertaken such a broad comparative study of exclusionary rules which have now become a world wide phenomenon The topic is one of the most controversial in criminal procedure law because it reveals a constant tension between the criminal court's duty to ascertain the truth on the one hand and its duty to uphold important constitutional rights on the other most importantly the privilege against self incrimination and the right to privacy in one's home and one's private communications The chapters were contributed by noted world experts on the subject for the XVIII Congress of the International Academy of Comparative Law in Washington in July 2010

Audi Alteram Partem in Criminal Proceedings Stefano Ruggeri, 2017-04-12 This book analyses current developments in Europe and Latin America towards the greater involvement of the parties in the administration of criminal justice Focusing on both national criminal proceedings and transnational cases this study employs a comparative law approach to examine the shift experienced by Italy and Brazil from the long tradition of mixed criminal justice to unprecedented adversarial trends The identification of common needs and divergences from the national approach to criminal justice paves the way for a subsequent analysis of new solution models emerging from international human rights law and EU law To a great extent these developments are due to the increasing impact of international human rights case law on the criminal justice systems of the countries in question The book concludes by proposing a set of qualitative requirements for a participatory model of criminal justice

Investigating European Fraud in the EU Member States

Alessandro Bernardi, Daniele Negri, 2017-07-13 This book offers a detailed overview of the rules regarding criminal investigations into financial economic criminality in the EU's main legal systems. These rules have become fundamental to the effective protection of the Union's financial interests. It undertakes a comparative study of six national legislatures: Italy, Spain, France, Germany, Poland, and the UK, which serve as paradigms of the different judicial systems existing in the Union in order to offer a complete overview of the different approaches to financial economic investigation in the EU. The work is further enriched with cross-sectional essays that deal with the more general issues such as data protection and the future of investigations in the view of the establishment of the European Public Prosecutor's Office or EPPO. This provides a wider perspective on the themes considered. The book also examines trans-national issues providing essential context to the EU's legislative instruments intended to protect the financial interests of the Union.

Academic research of SSaH 2015 group of authors, 2015-12-28 International Academic Conference on Social Sciences and Humanities in Prague 2015 NY sAC SSaH 2015 in Prague Wednesday Thursday December 30 31 2015 *Effective Criminal Defence in Europe* Ed Cape, 2010 Every year millions of people across Europe innocent and guilty are arrested and detained by the police. For some their cases go no further than the police station but many others eventually appear before a court. Many will spend time in custody both before and following trial. Initial attempts by the European Union to establish minimum procedural rights for suspects and defendants failed in 2007 in the face of opposition by a number of Member States who argued that the European Court of Human Rights (ECHR) rendered EU regulation unnecessary. However, with ratification of the Lisbon Treaty, criminal defense rights are again on the agenda. Based on a three-year research study, this book explores and compares access to effective defense in criminal proceedings across nine European jurisdictions: Belgium, England, Wales, Finland, France, Germany, Hungary, Italy, Poland, and Turkey, that constitute examples of the three major legal traditions in Europe: inquisitorial, adversarial, and a mix of both.

Avenir de la Reconnaissance Mutuelle en Matière Pénale Dans L'Union Européenne Gisèle Vernimmen-Van Tiggelen, Laura Surano, Anne Weyembergh, 2009 In the EU's fast-growing Area of Freedom, Security, and Justice, the principle of mutual recognition should play a key role in the field of judicial cooperation in criminal matters. Since mutual recognition was enshrined as a cornerstone of judicial cooperation in the EU by the European Council of Tampere in 1999, an increasing number of binding instruments based on this principle have been adopted in the framework of the EU's Third Pillar. The considerable impact of those instruments on national criminal legal systems has often required a major effort by Member States in adjusting their national legislation so that it complies with the new mechanisms agreed at EU level. What are the real difficulties encountered by Member States in the transposition of these legislative texts into national law, and even earlier when the texts are being negotiated within the Council of the EU? What lessons can be learned from the early years of their practical implementation by the competent judicial authorities? And above all, what will be the future role and scope of the principle of mutual recognition in criminal matters in Europe? The entry into force of the Lisbon Treaty and the adoption

of a new multi annual programme replacing the Hague Programme to strengthen the EU s Area of Freedom Security and Justice are both pending In this crucial time of transition and uncertainty the book seeks to provide answers to the above questions and many other related issues Through its country by country approach covering the vast majority of the Member States it intends to provide policymakers practitioners academics and researchers with a comprehensive analysis of the problems that have emerged and the solutions envisaged by each State in their implementation of mutual recognition instruments The country chapters are followed by a final EU wide analysis that seeks to identify common themes and obstacles and to consider future options and possible scenarios The whole study based on in depth research combined with interviews conducted with hundreds of practitioners and experts from across the EU amounts to a remarkable team performance carried out together with academics and researcher members of ECLAN European Criminal Law Academic Network
