**Runways & Racers** Terry O'Neil, 2022-02-07 Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases, together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to

potential irregularities and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races His findings led to the cessation of the races ordered by Congress The product of a long period of extensive research by the author this book gives a fascinating insight into this two year period complemented by over 150 period pictures many previously unpublished *British Book News* ,1983 **Paperbound Books in Print** ,1992 Subject Guide to Books in Print ,2001 *Northeast American Sports Car Races* Terry O'Neil,2022-02-07 The growth of sports car racing in Northeast America was not painless Tragedy mystery subterfuge intrigue and an adherence to a particular club philosophy all featured in its story during the 1950s when professionalism in the sport was always bubbling under the surface The northeast area of America has long been considered the cradle of post World War II sports car racing the Sports Car Club of America was founded there and it was the entry point to America for a host of European sports cars Early in the 1950s road races had been permitted by some State authorities but due to fatal accidents a ban on such racing came into effect Forced to find alternative venues the motor clubs were attracted to civil airports and a few military bases But the drivers craved more challenging venues on which to hone their skills This resulted in a few individuals chancing their reputation and a great deal of money and opening purpose built circuits This book gives a unique insight into this intriguing journey through the decade Extensively researched the compelling story and stunning contemporary photos many previously unpublished paint a fascinating portrait of a nascent sport coming into its own **British Book News** British Council,1983 Includes no 53a British wartime books for young people **British Books in Print** ,1986 **The Chartered Mechanical Engineer** ,1969 *Bibliographic Guide to Technology* New York Public Library.
