Forensic Shakespeare Quentin Skinner, 2014-10-30 *Forensic Shakespeare* illustrates Shakespeare's creative processes by revealing the intellectual materials out of which some of his most famous works were composed Focusing on the narrative poem *Lucrece* on four of his late Elizabethan plays *Romeo and Juliet* *The Merchant of Venice* *Julius Caesar* and *Hamlet* and on three early Jacobean dramas *Othello* *Measure for Measure* and *All's Well That Ends Well* Quentin Skinner argues that major speeches and sometimes sequences of scenes are crafted according to a set of rhetorical precepts about how to develop a persuasive judicial case either in accusation or

defence Some of these works have traditionally been grouped together as problem plays but here Skinner offers a different explanation for their frequent similarities of tone There have been many studies of Shakespeare s rhetoric but they have generally concentrated on his wordplay and use of figures and tropes By contrast this study concentrates on Shakespeare s use of judicial rhetoric as a method of argument By approaching the plays from this perspective Skinner is able to account for some distinctive features of Shakespeare s vocabulary and also help to explain why certain scenes follow a recurrent pattern and arrangement More broadly he is able to illustrate the extent of Shakespeare s engagement with an entire tradition of classical and Renaissance humanist thought
