Listener and BBC Television Review, 1989 *BBC Music Magazine*, 1995 *Digital Bridges: Developing Countries in the Knowledge Economy* Afele, John, 2002-07-01 Globalization and global equity are built on the premise of peace The causes of many divisions and tensions in human communities lie in the imagined or real gain of financial or material assets of some elements of the community to be at the expense of others The global community however lacks clear definitions and methods of stability whether political economic or social Digital Bridges Developing Countries in the Knowledge Economy provides insight into the methods and theories behind the globalization of information technologies **The Listener and BBC Television Review**, 1967 *English Mechanic and World of Science*, 1873 **The Wireless World and Radio Review**, 1929 *Wireless World*, 1929 **Time and Tide**, 1960 **Time & Tide** Helen A. Archdale, Margaret Haig Thomas Mackworth (Viscountess Rhondda), 1956-07 **Vital Signs** Lee Humber, 2019-08-20 Nature is no longer the leading cause of death society is This makes health care one of the most important political issues today This book looks at the reasons behind the declining condition of our bodies as governments across the world choose to neglect the health of the majority of their citizens Using hard data taken from service users Lee Humber constructs a sharp analysis that gets to the heart of inequality in health care today showing that wealthy means healthy Life expectancy for many in the UK and US is worse than it was 100 years ago and more and more communities across the world can expect shorter and less healthy lives than their parents Humber also suggests radical strategies for tackling this degenerative situation providing a compelling vision for how we can shape our health and that of future generations *The Listener*, 1988 *Wireless World*, 1972-07 **Participative Processes in the Field of Traffic and Transport** Angela Jain, Saira Alam, Hans-Liudger Dienel, 2012 Due to a constantly high population growth of India s sixth largest metropolis Hyderabad a strongly growing middle class and the subsequent rise of tra c and motorised vehicles in particular sustainable solutions are needed to secure daily routines For up to 50 % of the predominantly poor population walking is crucial for everyday life There is a tendency towards suburbanisation still for many people living in the city s central areas even low fares for busses or rickshaws are often not aordable Additionally the high level of air pollution poses a risk for people s health This paper presents the action research conducted in 2009 Citizens Exhibition expert workshop and online dialogue It analyses the degree of participation at di erent levels and evaluates the participative tools and methods used It explains the most important problems in the eld of tra c and transport from the citizens point of view on the local level and gives an outlook on the problems and tasks at the city level The analysis shows that the situation of pedestrians can be seen as one of the most important problems in the eld of tra c and transport a high

rate of fatal accidents in which pedestrians lose their lives Also missing or unattractive footpaths lead to a high probability of switching over to motorised transport modes by those pedestrians who can afford it and to the marginalisation of those who cannot afford it At the same time the topic bears good opportunities to come up with low tech cost effective and at the same time highly efficient solutions in terms of CO2 reduction Although for the reason that the topic is not on the top list of the political agenda there is a civil movement to push it forward and forcefully improve mobility and quality of life *Films and Video for Education and Teacher Training* Corinne H.
