Amos Tutuola Wikipedia:

Forest Imaginaries Ainehi Edoro, 2026-01-20 Forests in fiction are often understood simply as settings symbols or remnants of a premodern past Yet many African novelists have turned to the forest to experiment with worldbuilding and to imagine new futures This groundbreaking book explores the life of the forest in African fiction showing how writers have used it to reinvent the novel s formal aesthetic and political possibilities Ainehi Edoro argues that forests in African fiction are laboratories for unmaking and remaking the world where writers break apart familiar forms to test alternate forms of life knowledge and power Instead of treating the forest as a backdrop these writers imagine it as a living structure a space where politics history myth violence technology the magical and creativity animate fictional worlds Spanning indigenous African narratives and contemporary science fiction *Forest Imaginaries* traces the lineage of forest worlds in African literature Chinua Achebe s evil forest the cosmic forest in W le y nk s mythic imagination Thomas Mofolo s forest of imperial dreams Amos Tutuola s endless fractal forest and Nnedi Okorafor s aquatic forest of new ecological futures This book rethinks African literary history by showing how African writers draw on the forest and the wealth of Indigenous ideas about time space and storytelling it conjures to transform the novel s aesthetic political and philosophical horizons *Rapper, Writer, Pop-Cultural Player* Josephine Metcalf, Will Turner, 2016-04-08 This collection of essays critically engages with factors relating to black urban life and cultural representation in the post civil rights era using Ice T and his myriad roles as musician actor writer celebrity and industrialist as a vehicle through which to interpret and understand the African American experience Over the past three decades African Americans have faced a number of new challenges brought about by changes in the political economic and social structure of America Furthermore this vastly changed social landscape has produced a number of resonant pop cultural trends that have proved to be both innovative and admired on the one hand and contentious and divisive on the other Ice T s iconic and multifarious career maps these shifts This is the first book that taken as a whole looks at a black cultural icon s manipulation of or manipulation by so many different forms simultaneously The result is a fascinating series of tensions arising from Ice T s ability to inhabit conflicting pop cultural roles including hardcore gangsta rapper and dedicated philanthropist author of controversial song Cop Killer and network television cop self proclaimed pimp and reality television house husband As the essays in this collection detail Ice T s chameleonic public image consistently tests the accepted parameters of black cultural production and in doing so illuminates the contradictions of a society erroneously dubbed post racial Tradition and Modernity Lobiane Francis Rakotsoane, Roman Meinhold, 2007 *An African Biographical Dictionary* Norbert C. Brockman, 2006 Up to date and representative of African societies as a whole *An African Biographical Dictionary* provides a wealth of vital information for students of African culture and is an indispensable reference guide for anyone interested in African affairs Riddles of Belonging Christi A. Merrill, 2009 Can the subaltern joke Christi A Merrill answers by invoking riddling oral based fictions from Hindi Rajasthani Sanskrit and Urdu that dare to

laugh at what traditions often keep hidden whether spouse abuse ethnic violence or the uncertain legacies of a divinely wrought sex change Herself a skilled translator Merrill uses these examples to investigate the expectation that translated work should allow the non English speaking subaltern to speak directly to the English speaking reader She plays with the trope of speaking to argue against treating a translated text as property as a singular material object to be carried across as trans latus implies She refigures translation as a performative telling in turn from the Hindi word anuvad to explain how a text might be multiply possessed She thereby challenges the distinction between original and derivative fundamental to nationalist and literary discourse humoring our melancholic fixation on what is lost Instead she offers strategies for playing along with the subversive wit found in translated texts Sly jokes and spirited double entendres she suggests require equally spirited double hearings The playful lessons offered by these narratives provide insight into the networks of transnational relations connecting us across a sea of differences Generations of multilingual audiences in India have been navigating this Ocean of the Stream of Stories since before the 11th century arriving at a fluid sense of commonality across languages Salman Rushdie is not the first to pose crucial questions of belonging by telling a version of this narrative the work of non English language writers like Vijay Dan Detha whose tales are at the core of this book asks what responsibilities we have to make the rights and wrongs of these fictions come alive age after age

Love and Marriage in Africa in the Novels of Elechi Amadi, Buchi Emecheta and Chinua Achebe

Dr. Richa Jha,2022-03-03

The theme of love and marriage in literature is perhaps as old as literature itself Works of literature across borders and genres have worked around these twin themes to give us some of the most memorable tales yet they appear quite neglected by the critics when making a study of African literature The world of literary criticism has witnessed a newfound interest in the African continent which had for a long time been suffering in ignominious darkness yet the majority of critical study is still focused on postcolonial themes and human relationships have largely been ignored The white man s perception and portrayal of Africa as a land of savages devoid of finer emotions could be a major influence in this regard This study strives to prove that the Africans have always had a rich history and culture of interpersonal relationships and the twin themes of love and marriage run across their literature justifying their claim to being as capable of harboring finer emotions as any other civilization of the world The novels under study in this research work present the importance of love in various aspects like the man woman relationship parent child relationship and an individual s love for his native land

Various types of matrimonial alliances with the different aspects of an African marriage such as settling of marriage settlement and payment of the bride price gender equations polygamy widow remarriage etc have all been studied in the backdrop of the three novels taken under consideration This research work based on the novels of Elechi Amadi Buchi Emecheta and Chinua Achebe studies the representation of love and marriage in African literature as an important and recurrent theme that touches upon other aspects of the society like class division human relationships social beliefs myths superstition and most importantly the gender perspectives Re-mapping World Literature Gesine Müller, Jorge J.

Locane, Benjamin Loy, 2018-03-05 How can we talk about World Literature if we do not actually examine the world as a whole Research on World Literature commonly focuses on the dynamics of a western center and a southern periphery ignoring the fact that numerous literary relationships exist beyond these established constellations of thinking and reading within the Global South Re Mapping World Literature suggests a different approach that aims to investigate new navigational tools that extend beyond the known poles and meridians of current literary maps Using the example of Latin American literatures this study provides innovative insights into the literary modeling of shared historical experiences epistemological crosscurrents and book market processes within the Global South which thus far have received scant attention The contributions to this volume from renowned scholars in the fields of World and Latin American literatures assess travelling aesthetics and genres processes of translation and circulation of literary works as well as the complex epistemological entanglements and shared worldviews between Latin America Africa and Asia A timely book that embraces highly innovative perspectives it will be a must read for all scholars involved in the field of the global dimensions of literature **African Research & Documentation** ,2015 **Mũrogi wa Kagogo** Ngũgĩ wa Thiong'o, 2004 A novel
