Language and Journalism John Richardson,2013-09-13 This book is an indispensable cutting edge book for students and researchers of journalism studies seeking a text that illustrates and applies a range of linguistic and discourse analytic approaches to the analysis of journalism While the form function and politics of the language of journalism have attracted scholars from a wide range of academic disciplines too often this analysis has reduced the work of journalists to text characteristics alone In contrast this collection is united by the principle that

journalistic discourse is always socially situated and the result of a series of processes produced by journalists in accordance with particular production techniques and in specific institutional settings and as such analysis requires more than the methods offered by linguists. The contributors to this book draw on a range of the most prominent theoretical and methodological approaches to media discourse including Conversation Analysis, Critical Discourse Analysis, the APPRAISAL framework, Multi-modal Analysis and Rhetoric in making sense of the language of newspapers, national, local and minority press, television and online journalism. Written in an engaging style by distinguished academic authorities, this book provides a state-of-the-art review of the subject. This book was published as a special issue of *Journalism Studies*. Totalitarian Communication Kirill Postoutenko, 2014-04-09. Totalitarianism has been an object of extensive communicative research since its heyday already in the late 1930s, such as major cultural figures as George Orwell or Hannah Arendt were busy describing the visual and verbal languages of Stalinism and Nazism. After the war, many fashionable trends in social sciences and humanities ranging from Begriffsgeschichte and Ego Documentology to Critical Linguistics and Critical Discourse Analysis were called upon to continue this media-centered trend in the face of increasing political determination of the burgeoning field. Nevertheless, the integration of historical, sociological and linguistic knowledge about totalitarian society on a firm factual ground remains the thing of the future. This book is the first step in this direction. By using history and theory of communication as an integrative methodological device, it reaches out to those properties of totalitarian society which appear to be beyond the grasp of specific disciplines. Furthermore, this functional approach allows to extend the analysis of communicative practices commonly associated with fascist Italy, Nazi Germany and Soviet Union to other locations: France, United States of America and Great Britain in the 1930s or historical contexts: post-Soviet developments in Russia or Kyrgyzstan. This in turn leads to the revaluation of the very term totalitarian, no longer an ideological label or a stock attribute of historical narration; it gets a life of its own, defining a specific constellation of hierarchies, codes and networks within a given society. *The Language of Journalism* Angela Smith, Michael Higgins, 2020-07-09. *The Language of Journalism* 2nd edition provides lively and accessible tools to understand and analyse the language of journalism. The authors explain how language develops across divergent media platforms, old and new, by looking at the differences across various forms of journalism, including broadcast, magazine, newspaper, sports, radio and online, and citizen. As well as introducing the reader to the principles and methods of discourse analysis and how it can be applied to media, the book addresses the dynamic interplay between the emerging linguistic forms of social media and the journalistic field. With this new edition, the authors draw upon a range of international examples, including from the USA, India, Australia, China and the UK. They focus on an exploration of how social media is incorporated into the journalistic output of print media, with a particular focus on clickbait. This edition also focuses on the global ambitions of online newspapers such as the Daily Mail and the Guardian, which are UK-based but have Australian and US subsections. *Handbook of Research Methods in Migration* William L.

Allen, Carlos Vargas-Silva, 2024-10-03 In this thoroughly revised and updated second edition William Allen and Carlos Vargas Silva bring together a diverse range of experts to explore the latest research methods in migration studies taking stock of major changes that have been salient for migration research as well as the social sciences more broadly in the last decade Spanning a variety of different methodologies this second edition of the Handbook of Research Methods in Migration provides practical guidance on designing completing and communicating migration research considering diverse audiences including migrants themselves This title contains one or more Open Access chapters
