Bare Minimum Parenting James Breakwell, 2018-11-06. This isn't a book about overachieving at parenting. This isn't even a book about achieving exactly the right amount. This is a book about doing as little as possible without quite ruining your child. Overachieving parents want you to believe the harder you work the better your kid will turn out. That lie ends now. The truth is most kids end up remarkably unremarkable no matter what you do so you might as well achieve mediocrity by the easiest possible route. The goal of bare minimum parenting is to turn your child into a functional adult with only a fraction of the effort spent by super moms and dads. If you do it right your kid will be no better or worse off than their kids but with more free time left for you. That's more valuable than all the participation trophies in the world. In *Bare Minimum Parenting* amateur parenting expert James Breakwell will teach you to stop worrying and embrace your child's destiny as devastatingly average. To get there you'll have to overcome your kid, other parents, and yourself, all of whom will push you to do more than is absolutely necessary. Honestly, by reading this far you're already trying too hard. But don't stop now. You're exactly the kind of person who needs this book.

Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05. The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.
