D S Carne Ross was one of the finest critics of classical literature in English translation after Arnold More than four decades of Carne Ross's writings are represented in this volume which includes criticism of both ancient and modern writers in addition to historical critical studies of translation discriminating analyses of translators widely read today and investigations in the relationship between translation criticism and literary creation This book will appeal to a wide audience including classicists specialists in reception and translation studies students of comparative literature and literary readers Two chapters give readings of the Odyssey and the Oresteia others focus on significant and influential translations of those works Two long essays give extended accounts of two of the most widely read twentieth century translators of Greek and Latin

Robert Fitzgerald and Richmond Lattimore there are also incisive studies of translations by H D David Ferry Christopher Logue and others Some essays focus on a particular work author or genre in translation for example Pindar s Pythian 12 Horace Greek tragedy and Greek epigram The first and final chapters use translation as a point of departure in order to investigate questions about transfers between ancient and modern literatures In all the essays translated works are considered in their relation to Greek or Roman literature and also as contributions to English literature as a source of innovation for it or as a way of laying bare connections between past and present moments **Educational Times** ,1905
