The Political Economy of Universal Healthcare in Africa Philip C. Aka,Hassan Wahab,Yvette M. Alex-Assensoh,2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana s National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of healthcare as a human right Themes that animate the book s argument

include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science

Taiwanese Identity from Domestic, Regional and Global Perspectives Jens Damm, Gunter Schubert, 2007 The tension between Taiwan's globalization and its ongoing identity formation is clearly visible in the economic political and societal spheres of the island republic Against this background the authors of this volume deal with the following questions To what extent has Taiwan become part of the Greater China region and in that sense a part of China How successful have Taiwan's endeavors been to escape China assert its own identity and communicate this to the international community How does Taiwanese identity connect to its integration within Greater China and beyond that is to its being part of a globalized transnational world The varied focus and range of the papers in this volume show that politically the result of the debate on Taiwan's national identity is undecided economically however Taiwan has become part of a Greater China region and cross Strait integration would thus seem to be inevitable
