*Study Companion [to] Computer Networking* James F. Kurose, Keith W. Ross, 2007

*Mastering Computer Networking Technologies* Liam Norman, 2018-05-19 Mastering Computer Networking Technologies is designed to help students understand the basics of data communications and networking and the protocols used in the Internet in particular by using the protocol layering of the Internet and TCP IP protocol suite Technologies related to data communication and networking may be the fastest growing in today's culture The appearance of some new social networking applications is a testimony to this claim In this Internet oriented society specialists need to be trained to run and manage the Internet part of the Internet or an organization's network that is connected to the Internet As both the number and types of students are increasing it is essential to have a textbook that provides coverage of the latest advances while presenting the material in a way that is accessible to students

with little or no background in the field Using a top down approach Mastering Computer Networking Technologies presents this highly technical subject matter without relying on complex formulas by using a strong pedagogical approach supported by numerous figures This textbook brings the beginning student right to the forefront of the latest advances in the field while presenting the fundamentals in a clear straightforward manner Students will find better coverage improved figures and better explanations on cutting edge material The top down approach allows instructors to cover the material in one course rather than having separate courses on data communications and networking
