**Citizenship in Motion** Hazama, Itsuhiro, Umeya, Kiyoshi, 2019-04-22 Anthropological reflections on citizenship focus on themes such as politics ethnicity and state management Present day scholarship on citizenship tends to problematise unsettle and contest often taken for granted conventional connotations and associations of citizenship with imagined culturally bounded political communities of rigidly controlled borders This book the result of two years of research conducted by South African and Japanese scholars within the framework of a bilateral project on citizenship in the 21st century contributes to such ongoing efforts at rethinking citizenship globally and as informed by experiences in Africa and Japan in particular Central to the essays in this book is the concept of flexible citizenship predicated on a recognition of the histories of mobility of people and cultures and of the shaping and reshaping of places and spaces and ideas of being and belonging in the process The book elucidates the contingency of political membership relationship between everyday practices and political membership and how citizenship is the mechanism for claiming and denying rights to various political communities Self requires others to construct itself a reality that is subject to renegotiation as one continues to encounter others in a world

characterised by myriad forms of interconnecting mobilities both global and local Citizenship is thus to be understood within a complex of power relationships that include ones formed by laws and economic regimes on a local scale and beyond Citizenship in Africa Japan and indeed everywhere is best explored productively as lying between the open ended possibilities and tensions interconnecting the global and local

**Graph Theory** Beril Sirmacek, 2018-01-31 This book is prepared as a combination of the manuscripts submitted by respected mathematicians and scientists around the world As an editor I truly enjoyed reading each manuscript Not only will the methods and explanations help you to understand more about graph theory but I also hope you will find it joyful to discover ways that you can apply graph theory in your scientific field I believe the book can be read from the beginning to the end at once However the book can also be used as a reference guide in order to turn back to it when it is needed I have to mention that this book assumes the reader to have a basic knowledge about graph theory The very basics of the theory and terms are not explained at the beginner level I hope this book will support many applied and research scientists from different scientific fields

**Death and Events** Ian R Lamond, Ruth Dowson, 2021-11-11 This unique volume examines death from a socio cultural events perspective Drawing on the empirical and conceptual work produced by an international body of researchers it is the first publication to look at death dying memorialization and their mediation from an events orientation By placing the contribution of these scholars together this book provides a unique opportunity to instigate an international critical discussion around the connectivities associated with death and events Chapters consider connections to death and events on many levels including individual local communally based construals of the event landscape the relationship between death and events into larger socio cultural frames of reference Chapters also consider how death and events are manifest through diverse platforms of mediation with a discussion of the media presentation of end of life events and the articulation of death online Case studies from a wide ranging selection of countries from Moscow to Bangladesh to Cambodia are examined throughout This will be of great interest to upper level students and researchers in event studies as well as a variety of other disciplines such as sociology and cultural studies
