Management Accounting Carsten Berkau, 2023-09-25 Management Accounting is a textbook for business management study programmes. It covers the international syllabus of cost accounting and controlling on bachelor's and master's levels. Prof. Berkau has more than 25 years of teaching experience in Germany (UAS Osnabrück) and at international universities in South Africa, Malaysia, China, the Netherlands, and South Korea. The textbook strictly follows a case study based approach. All methods are discussed by easily understandable cases. The calculations demonstrate how to apply management accounting step by step. In the first chapters, the case study PENOR PLC about a British windows doors manufacturer explains the differences between financial accounting (IFRSs) and management accounting. In the next following sections, the textbook covers two points of view: 1. a controlling view with budgeting, cost volume profit analysis, degree of operating leverage, investment appraisal, mergers and cross border acquisitions, and risk valuation Monte Carlo Simulation. 2. a cost accounting view that covers management accounting systems, flexible budgeting, cost allocation methods, performance measurement, monitoring, reporting, product calculation, manufacturing accounting, job order and process costing, activity based costing, target costing, and contribution margin accounting. On the UVK website, numerous exam tasks with complete solutions, further study materials, and links to video clips produced by Prof. Berkau are available for download.

[A Textbook of Cost and Management Accounting, 10th Edition](#) Arora M.N., 2012. A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts, cost behaviour, and methods and techniques of cost and management accounting, with an understanding of the uses and limitations of cost and financial data for managerial operations. The text of the subject matter has been presented in a student friendly, simple and intelligible manner. Every discussion involving conceptual complexity is immediately illustrated by a numerical example. In addition, the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points. The subject matter has been organized on a first things first basis for its logical presentation that sustains interest. The approach of the book is examination oriented. Thus, a good number of problems and solutions have been included in its chapters. Theoretical and numerical questions have been mostly selected from various examinations. Objective type questions have been given to serve as self test by students. This is an ideal book for self study. New to this edition: All chapters thoroughly revised. Latest information on Cost Accounting Standards (CAS) issued by the Institute of Cost Accountants of India (ICAI). Chapter on Miscellaneous Topics made more contemporary by including some new sub topics and thus re-named Advanced Cost Management Techniques. Revision and augmentation of practical problems.
