Managerial Accounting 15th Edition Garrison:

Basics of Accounting Carsten Berkau, Keabetswe Sylvia Berkau, 2018-04-23 Basics of Accounting targets students in international business study programs. It covers the widely applied syllabus of Accounting at universities on bachelors and masters level. In this book the application of the methods comes first. The Basics teach how to do Accounting by a case study based approach. All cases were taken from former exam papers at international universities and calculated completely and illustrated understandably. Bookkeeping and Financial Accounting covers the preparation of financial statements based on IFRS. Bookkeeping is taught as far as it is required for the understanding by managers. More formal aspects about how to keep financial records are cut short to the minimum. *ICMLG 2018 6th International Conference on Management Leadership and Governance* Dr Vincent Ribiere, 2018-05-24 These proceedings represent the work of researchers participating in the 6th International Conference on Management Leadership and Governance ICMLG 2018 which is being hosted this year by the Institute for Knowledge and Innovation Southeast Asia IKI SEA a Centre of Excellence of at Bangkok University Thailand on 24-25 May 2018. The Routledge Handbook of Accounting Ethics Eileen Z. Taylor, Paul F. Williams, 2020-12-29 The perspective of this book is to present ethics as a conversation about how we decide what is good or bad, right or wrong. It is a collection of conversations employed by educators to assist accounting students in developing their understanding of accounting's ethical aspects and to help them develop into critical thinkers who consider the ethical complexities of the function of accounting in human society. Because we are social beings, ethics is a central human concern since it involves determining the ethicality of human actions and their effect on other individuals as well as determining the collective societal acceptance or rejection of an action. Thus the book's primary goal is to call attention to the intersectionality of accounting and ethics and to encourage students and researchers to consider the ethical implications of accounting decisions. The book contains a diversity of perspectives within which discussions of accountants and accounting's ethical responsibilities may occur. The contributing authors were deliberately chosen for their diverse perspectives on whence moral guidance for accounting may come. Each chapter stands on its own and represents the thinking of its authors. The book is not a primer on correct behavior for accountants but a place where educators may spur the conversation along. **Proceedings of the International Conference on Sustainable Green Tourism Applied Science - Social Applied Science 2025 (ICOSTAS-SAS 2025)** Anak Agung Ngurah Gde Saptaka, I Komang Wiratama, Fransiska Moi, Komang Widhi Widantha, Elvira Septevany, Dewa Ayu Indah Cahya Dewi, Wayan Eny Mariani, Rifqi Nur Fakhrurozi, 2025-11-12 This is an open access book.
