Compliance Management Nitish Singh Ph.D., Thomas J. Bussen, John Jay Kenagy, 2015-03-10 This practical guide shows how to build an effective compliance and ethics program that will lower a business's risks and improve productivity. Research increasingly supports the notion that ethical compliant businesses see increased productivity across a range of measurements. This practical guide tells business professionals, business and law students, and other interested parties exactly how that goal can be achieved. The book covers an extensive range of ethics compliant laws and regulations impacting businesses today and identifies critical factors for successful compliance programs. Going well beyond works that speak in general terms about compliance based actions, this unique volume delves into details about specific regulatory issues and the steps that can be taken to mitigate risk. The first half of the book shares general guidelines for creating or improving internal compliance and ethics programs. The second half identifies specific high risk regulatory areas, provides an overview of relevant laws, and sets forth best practices specific to the regulations discussed. By providing a simplified understanding of compliance with laws related to issues such as antitrust, international business, wages and labor, Health Insurance Portability and Accountability Act (HIPAA) and health care, the environment, and more, the guide offers readers the tools necessary to improve an existing compliance program or create a new program where none has existed before.

This volume is an essential resource for anyone with an interest in teaching, developing a new program, or entering into a joint venture in China. A wide range of topics such as economic transition, pedagogical issues, professional training, and alliance formation are discussed from the standpoint of deans, educators, directors, and consultants of educational institutions hailing from both the East and the West.

Contemporary Business Insights: Perspectives from Undergraduate Scholars Ms. Jashandeep Kaur, 2025-12-05 *The Human Right to Health and Corporate Responsibility in Sub-Saharan Africa* Thierry Ngosso, Jennifer Heaven Mike, 2025-12-11 This philosophically and legally grounded volume explores the human right to health in Sub-Saharan Africa, focusing on corporate responsibility. Combining practical insights with thorough scholarship, it analyzes the universal legal basis of the right, the responsibilities it entails, and how it is applied within specific African contexts. Health has long been recognized as a fundamental human right protected by Article 25 of the 1948 Universal Declaration of Human Rights and Article 12 of the 1966 International Covenant on Economic, Social, and Cultural Rights. While the obligation of states to uphold this right is clear, the extent of corporate responsibility, legally and in stakeholder expectations, remains unclear. This book fills that gap by advocating for a strategic and context-aware approach to corporate health obligations in Africa. It emphasizes that such responsibilities should stand

apart from the capacity or political will of states to fulfill their own human rights commitments The book gathers contributors from diverse countries and disciplines such as law political science ethics and medicine It examines whether and how corporations businesses and other private entities can be held to binding human rights duties especially concerning the right to health It also discusses how these duties might be implemented in African settings through policies regulations public health programs and corporate accountability systems A distinctive feature of the book is its engagement with African intellectual traditions to strengthen the normative concept of corporate responsibility It also emphasizes the importance of shared responsibility between public and private actors in addressing structural health challenges on the continent The Human Right to Health and Corporate Responsibility in Sub Saharan Africa is a timely academic and research resource for scholars and students in law philosophy ethics business public health and the social sciences It is also of interest to policymakers NGOs and human rights advocates seeking to align corporate conduct with fundamental human rights in African settings
