Analyzing Oppression:

Analyzing Oppression Ann E. Cudd, 2006-04-27 *Analyzing Oppression* presents a new integrated theory of social oppression which tackles the fundamental question that no theory of oppression has satisfactorily answered if there is no natural hierarchy among humans why are some cases of oppression so persistent Cudd argues that the explanation lies in the coercive co-opting of the oppressed to join in their own oppression This answer sets the stage for analysis throughout the book as it explores the questions of how and why the oppressed join in their oppression Cudd argues that oppression is an institutionally structured harm perpetrated on social groups by other groups using direct and indirect material economic and psychological force Among the most important and insidious of the indirect forces is an economic force that operates through oppressed persons own rational choices This force constitutes the central feature of analysis and the book argues that this force is especially insidious because it conceals the fact of oppression from the oppressed and from others who would be sympathetic to their plight The oppressed come to believe that they suffer personal failings and this belief appears to absolve society from responsibility While on Cudd's view oppression is grounded in material exploitation and physical deprivation it cannot be long sustained without corresponding psychological forces Cudd examines the direct and indirect psychological forces that generate and sustain oppression She discusses strategies that groups have used to resist oppression and argues that all persons have a moral responsibility to resist in some way In the concluding chapter Cudd proposes a concept of freedom that would be possible for humans in a world that is actively opposing oppression arguing that freedom for each individual is only possible when we achieve freedom for all others

Socially Undocumented Amy Reed-Sandoval, 2020 What does it really mean to be undocumented particularly in the contemporary United States Political philosophers immigration policy makers and others have tended to define the term undocumented migrant legalistically that is in terms of lacking legal authorization to live and work in one's current country of residence In *Socially Undocumented* Reed Sandoval challenges this legalistic understanding by arguing that being socially undocumented is to possess a real visible and embodied social identity that does not always track one's legal status She further argues that achieving immigration justice in the U.S. and elsewhere requires a philosophical understanding of the racialized class based and gendered components of socially undocumented identity and oppression *Socially Undocumented* offers a new vision of immigration justice by integrating a descriptive and phenomenological account of socially undocumented identity with a normative and political account of how the oppression with which it is associated ought to be dealt with as a matter of social justice It also addresses concrete ethical challenges such as the question of whether open borders are morally required the militarization of the Mexico U.S. border the perilous

journey that many migrants undertake to get to the United States the difficult experiences of the women who cross U S borders seeking prenatal care while pregnant and more

Men's Rights, Gender, and Social Media Christa Hodapp,2017-09-05 This work examines the contemporary men s rights movement MRM a mainly online movement that claims men are oppressed by gender norms women and feminism While some feminists and other progressives have dismissed the movement as simple misogyny this book argues that the MRM expresses a growing cultural trend in male anger and frustration and is an extreme manifestation of what has been previously referred to as a masculinity crisis In order to assess the implications of the MRM for gender politics this book explores the movement politically investigating the ways in which online communication and media outlets have impacted contemporary meanings of identity gender language and political engagement Furthermore a discussion of various issues promoted by the MRM such as parenting divorce employment and violence provide deeper insights into the issues surrounding masculinity and gender politics in current sociopolitical contexts

Sexual Deceit Kelby Harrison,2013-03-14 Sexual Deceit is an extended ethical analysis of the phenomenon of sexual identity passing i e socially presenting as X when one understands oneself as Y where the variables represent any contemporary sexual identity alongside identity passing in the contexts of race gender and briefly religion and class The analysis of passing utilizes and challenges traditional moral understandings of identity falsification complicating our understandings of moral obligations under systemic oppression Tracing the intervention of social construction theory on contemporary political understandings of LGBT communities and activism Sexual Deceit argues against social construction models of identity notably performativity promulgated by the work of Judith Butler and consumed and repeated by many scholars and theory educated queer people A new model of identity is constructed based on a phenomenological concept of style that provides for a socially adjustable yet rooted notion of sexual identity The ethical implications of sexual identity passing are considered in the context of eschatological images of social justice and within practical matters such as military service leadership and sexual harassment law

Black Rights/white Wrongs Charles Wade Mills,2017 Liberalism is the political philosophy of equal persons yet liberalism has denied equality to those it saw as black sub persons In *Black Rights White Wrongs The Critique of Racial Liberalism* political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in the United States today

Repression, Integrity and Practical Reasoning G. Jaeger,2012-06-19 Repression receives little attention in philosophical literature This study of cases of repression that inhibit an agent s deliberative access to his reasons argues that an agent cannot correctly deliberate about a reason to overcome repression as if he did so he would already have overcome repression and so would have no reason to do so
