Oxford Textbook of Geriatric Medicine Jean-Pierre Michel, B. Lynn Beattie, Finbarr C. Martin, Jeremy D. Walston, 2018 The third edition of the definitive international reference book on all aspects of the medical care of older persons will provide every physician involved in the care of older patients with a comprehensive resource on all the clinical problems they are likely to encounter as well as on related psychological philosophical and social issues

Rethinking the Environmental Impacts of Renewable Energy Alexander Clarke, 2016-08-25 Renewable energy is important as a substitute for finite fossil fuels and inflexible nuclear power and could conceivably power the world However this is challenging as the world is currently 80% dependent on fossil fuels and renewable sources produce only about 15% of total energy Conversion technologies for use with many of the eight different primary sources of renewable energy are only just emerging as viable technologies While renewable energy sources will not run out and their use involves little or no release of carbon dioxide or ionising wastes they do have local environmental impacts of their own This book analyses the nature of environmental impacts from renewable sources A novel method of assessing impacts is explored based on a set of parameters centred on how diffuse or concentrated the energy flow is The approach that is developed will inform engineers designers policy makers and planners as well as researchers in the area

International Handbook of Positive Aging Rachael E. Docking, Jennifer Stock, 2017-07-14 As our global demographic shifts towards an increasingly aging population we have an opportunity to transform how we experience and think about getting older and embrace the diversity and contribution that this population can bring to society The International Handbook of Positive Aging showcases the latest research and theory into aging examining the various challenges faced by older adults and the ways in which we can bring a much needed positive focus towards dealing with these The handbook brings together disparate research from medical academic economic and social community fields with contributions from NHS partners service users universities across the United Kingdom and collaborations with international research leaders in the field of aging Divided into sections the first part of the book focuses on introducing the concept of positive aging before going on to cover the body over the life course well being and care delivery All contributors recognise the fact that we are living longer which is providing us with a tremendous opportunity to enjoy and flourish in healthy and fulfilling later lives and this focus on the importance of patient empowerment is integral to the book This is a valuable reference source for those working in developmental psychology clinical psychology mental health health sciences medicine neuropsychological rehabilitation sociology anthropology social policy and social work It will help encourage researchers professionals and policymakers to make the most of opportunities and innovations to promote a person's sense of independence dignity well being good health and participation in society as they get older
