Parallel Computing Technologies Victor Malyshev, 2019-08-01 This book constitutes the proceedings of the 15th International Conference on Parallel Computing Technologies (PaCT 2019) held in Almaty, Kazakhstan in August 2019. The 24 full papers and 10 short papers presented were carefully reviewed and selected from 72 submissions. The papers are organized in topical sections on Programming Languages and Execution Environments, Methods and Tools for Parallel Solution of Large Scale Problems, Data Processing, Cellular Automata, and Distributed Algorithms.

Methods and Tools of Parallel Programming Multicomputers Ching-Hsien Hsu, Victor Malyshev, 2010-09-25 It is our great pleasure to present the proceedings of the second Russia-Taiwan Symposium on Methods and Tools of Parallel Programming (MTPP 2010). MTPP is the main regular event of the Russia-Taiwan scientific forum that covers the many dimensions of methods and tools of parallel programming, algorithms, and architectures encompassing fundamental theoretical approaches, practical experimental projects, and commercial components and systems. As applications of computing systems have permeated every aspect of daily life, the power of computing systems has become increasingly critical. Therefore, MTPP is intended to play an important role, allowing researchers to exchange information regarding advancements in the state of the art and practice of IT-driven services and applications, as well as to identify emerging research topics and define the future directions of parallel computing. We received a large number of high-quality submissions this year. In the first stage, all papers submitted were screened for their relevance and general submission requirements. These manuscripts then underwent a rigorous peer review process with at least three reviewers per paper. At the end, 33 papers were accepted for presentation and included in the main proceedings. To encourage and promote the work presented at MTPP 2010, we are delighted to inform the authors that some of the papers
