Computer Networks Lecture Notes Svecw:

Computer Communication, Networking and Internet Security Suresh Chandra Satapathy, Vikrant Bhateja, K. Srujan Raju, B. Janakiramaiah, 2017-05-02 The book is a compilation of high quality scientific papers presented at the 3rd International Conference on Computer Communication Technologies IC3T 2016 The individual papers address cutting edge technologies and applications of soft computing artificial intelligence and communication In addition a variety of further topics are discussed which include data mining machine intelligence fuzzy computing sensor networks signal and image processing human computer interaction web intelligence etc As such it offers readers a valuable and unique resource

ICT for Intelligent Systems Jyoti Choudrie, Parikshit N Mahalle, Thinagaran Perumal, Amit Joshi, 2026-01-01 This book gathers papers addressing state of the art research in all areas of information and communication technologies and their applications in intelligent computing cloud storage data mining and software analysis It presents the outcomes of the 9th International Conference on Information and Communication Technology for Intelligent Systems ICTIS 2025 held in Bangkok Thailand The book discusses the fundamentals of various data analysis techniques and algorithms making it a valuable resource for researchers and practitioners alike

High Performance Computing, Smart Devices and Networks Ruchika Malhotra, L. Sumalatha, S. M. Warusia Yassin, Ripon Patgiri, Naresh Babu Muppalaneni, 2023-12-01 This book comprises the proceedings of the 3rd International Conference on Computer Vision High Performance Computing Smart Devices and Networks CHSN 2022 This book highlights high quality research articles in machine learning computer vision and networks The content of this volume gives the reader an up to date picture of the state of the art connection between computational intelligence machine learning and IoT The papers in this volume are peer reviewed by experts in related areas The book will serve as a valuable reference resource for academics and researchers across the globe

Computing and Machine Learning Jagdish Chand Bansal, Samarjeet Borah, Shahid Hussain, Said Salhi, 2026-02-02 This book features high quality research papers presented at the International Conference on Computing and Machine Learning CML 2025 organized by the Department of Computer Applications Sikkim Manipal Institute of Technology Sikkim Manipal University Sikkim India during March 22 23 2025 The book presents diverse range of topics including machine learning algorithms and models deep learning and neural networks computer vision and image processing natural language processing robotics and automation reinforcement learning big data analytics cloud computing Internet of things human robot interaction ethical and social implications of AI applications in health care finance and industry computer modeling quantum computing high performance computing cognitive and parallel computing cloud computing distributed computing embedded computing human centered computing and mobile computing

Intelligent System Design Vikrant Bhateja, K. V. N. Sunitha, Yen-Wei Chen, Yu-Dong Zhang, 2022-10-27 This book presents a collection of high quality peer reviewed research papers from the 7th International Conference on Information System Design and Intelligent Applications India 2022 held at BVRIT Hyderabad College of

Engineering for Women Hyderabad Telangana India from February 25 to 26 2022 It covers a wide range of topics in computer science and information technology including data mining and data warehousing high performance computing parallel and distributed computing computational intelligence soft computing big data cloud computing grid computing and cognitive computing

Soft Computing: Theories and Applications Rajesh Kumar,Ajit Kumar Verma,Om Prakash Verma,Jitendra Rajpurohit,2025-10-02 The book is a collection of high quality papers presented at the International Conference on Soft Computing Theories and Applications SoCTA 2024 held at Malaviya National Institute of Technology MNIT Jaipur Rajasthan India during 27 29 December 2024 This book focuses on soft computing and how it can be applied to solve real world problems arising in various domains ranging from medicine and healthcare to supply chain management image processing and cryptanalysis The book offers valuable insights into soft computing for teachers and researchers alike the book inspires further research in this dynamic field

Computer Networks & Communications (Netcom) Nabendu Chaki,Natarajan Meghanathan,Dhinaharan Nagamalai,2016-05-01 Computer Networks Communications NetCom is the proceedings from the Fourth International Conference on Networks Communications This book covers theory methodology and applications of computer networks network protocols and wireless networks data communication technologies and network security The proceedings will feature peer reviewed papers that illustrate research results projects surveys and industrial experiences that describe significant advances in the diverse areas of computer networks communications

Computer Engineering and Networking W. Eric Wong,Tingshao Zhu,2014-03-11 This book aims to examine innovation in the fields of computer engineering and networking The book covers important emerging topics in computer engineering and networking and it will help researchers and engineers improve their knowledge of state of art in related areas The book presents papers from The Proceedings of the 2013 International Conference on Computer Engineering and Network CENet2013 which was held on 20 21 July in Shanghai China

Networks and Grids Thomas G. Robertazzi,2007-07-13 This useful volume adopts a balanced approach between technology and mathematical modeling in computer networks covering such topics as switching elements and fabrics Ethernet and ALOHA design The discussion includes a variety of queueing models routing protocol verification and error codes and divisible load theory a new modeling technique with applications to grids and parallel and distributed processing Examples at the end of each chapter provide ample material for practice This book can serve as an text for an undergraduate or graduate course on computer networks or performance evaluation in electrical and computer engineering or computer science

Computer-aided Network Analysis and Design Institute of Electrical and Electronics Engineers,1972*

Computer Networks Uyless D. Black,1993 Reflecting the advances made since the first edition was published this new edition offers a succinct and concise tutorial on the major types of networks in use today Each modular chapter provides a complete description of a major computer network technology covering Frame Relay SMDS FDDI and SONET technology This volume will be a valuable working tool for computer programmers project

managers team leaders computer engineers and anyone responsible for recommending purchasing installing or maintaining computer network communications systems

Optimization of Computer Networks Pablo Pavón Mariño, 2016-05-02 This book covers the design and optimization of computer networks applying a rigorous optimization methodology applicable to any network technology It is organized into two parts In Part 1 the reader will learn how to model network problems appearing in computer networks as optimization programs and use optimization theory to give insights on them Four problem types are addressed systematically traffic routing capacity dimensioning congestion control and topology design Part 2 targets the design of algorithms that solve network problems like the ones modeled in Part 1 Two main approaches are addressed gradient like algorithms inspiring distributed network protocols that dynamically adapt to the network or cross layer schemes that coordinate the cooperation among protocols and those focusing on the design of heuristic algorithms for long term static network design and planning problems Following a hands on approach the reader will have access to a large set of examples in real life technologies like IP wireless and optical networks Implementations of models and algorithms will be available in the open source Net2Plan tool from which the user will be able to see how the lessons learned take real form in algorithms and reuse or execute them to obtain numerical solutions An accompanying link to the author's own Net2plan software enables readers to produce numerical solutions to a multitude of real life problems in computer networks www.net2plan.com

DATA COMMUNICATIONS AND COMPUTER NETWORKS BRIJENDRA SINGH, 2014-02-11 This fully revised and updated book now in its Fourth Edition continues to provide a comprehensive coverage of data communications and computer networks in an easy to understand style The text places as much emphasis on the application of the concepts as on the concepts themselves While the theoretical part is intended to offer a solid foundation of the basics so as to equip the student for further study the stress on the applications is meant to acquaint the student with the realistic status of data communications and computer networks as of now Audience Intended primarily as a textbook for the students of computer science and engineering electronics and communication engineering master of computer applications MCA and those offering IT courses this book would also be useful for practising professionals NEW TO THIS EDITION Three new chapters on o Network Architecture and OSI Model o Wireless Communication Technologies o Web Security Appendix on Binary and Hexadecimal Numbering Key features Illustrates the application of the principles through highly simplified block diagrams Contains a comprehensive glossary which gives simple and accurate descriptions of various terms Provides Questions and Answers at the end of the book which facilitate quick revision of the concept
