A Happier You Dr. Mukesh Jain,2023-01-05 All of us want to be happy Whether our dreams are about professional success spiritual fulfilment a sense of connection a purpose in life or love we cover those things since we believe that they will make us happier We think if I just get that raise or hit that next sales target I shall be happy If I can just get that next good grade I will be happy If I lose those five pounds I will be happy and so on Success comes first then happiness The only problem is that this formula is broken This success central hypothesis has created a wrong perception of our personal and professional universe Ground breaking research in the fields of positive psychology and neuroscience has proven in no uncertain terms that the relationship between success and happiness works the other way around Thanks to this cutting edge science we now know that happiness is the precursor to success not merely the result Remaking yourself a happier person and living a flourishing and meaningful life is entirely in your hands if you are willing to bring to bear some effort and commitment are ready and only if you understand how to proceed A Happier You can be taken as the Art of happiness based on the Science of Happiness Princeton Alumni Weekly ,2008 *Summary of John C. Bogle's Enough* Everest Media,2022-04-04T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The financial system takes from society and the more it takes the less the investor earns The more the financial system takes from you the less you have The investor feeds at the bottom of the food chain of investing 2 The financial sector which was booming at the time began to crumble in 2007 The industry was led by Citigroup and investment banks Merrill Lynch and Bear Stearns who created risky reckless and costly debt instruments 3 The financial sector has dominated the American economy and stock market and has been responsible for a large portion of the SP 500 company s earnings The clients of the banking firms have lost billions of dollars in risky debt obligations yet investment banking executives continue to be paid at high levels 4 The recent financial crisis has shown the compensation of three well publicized financial sector CEOs who failed their clients and their shareholders Charles Prince CEO of Citigroup took office in October 2003 with Citigroup stock selling at 47 per share While the bank did well for a few more years it created a highly risky investment portfolio that fell to pieces within five years *Journal of Investment Management* ,2009 Strategy & Business ,2009

Eminent Corporations Andrew Simms, David Boyle, 2010 How much do you know about the big name brands we live by Virgin BP Land Rover Barclays Cadbury s BBC and M S In our times the PLCs have been seen as giants the backbone of commerce and society Yet seen through a historical perspective they are vulnerable creatures flowering only briefly In fact on the Fortune 500 a roll call of power if ever there was one there s just one company General Electric which was on the list half a century ago The rest have gone broken bankrupt merged raided for their parts More like mayflies than megacorps And getting more fragile all the time The great corporations that now dominate our lives are treated by the law courts as if they were people They have the same rights but unlike us they have no emotions morals or life histories The only corporate biographies you find are celebratory promotional portraits with the warts left out So we don t really know where most great brands came from or where they are going This book spills the beans by telling the real life stories of some of the biggest corporate names and finds them as dramatic flawed and revealing as any human biography
