Norton, 2008-10-28 Hoy en día parece que las empresas exitosas tienen un sistema para todo De la adquisición de nuevos clientes a la gestión de la relación con el cliente de la gestión de calidad a la medición del desempeño los líderes de la industria han comprendido que instaurar procesos sistemáticos reduce el riesgo evita la imprevisión y garantiza las mejores posibilidades de obtener buenos resultados Sin embargo la mayoría de las empresas aún no ha desarrollado un sistema para gestionar su proceso más importante cómo desarrollar y ejecutar sus estrategias En *The Execution Premium* Robert Kaplan y David Norton demuestran que las empresas que utilizan un sistema formal de implementación de la estrategia sin duda superan a sus pares Los autores sostienen que si bien ya existen muchas de las herramientas necesarias para implementar una estrategia con efectividad no se ha desarrollado todavía un marco que relacione los diversos elementos inherentes a esa implementación En esta obra crean un sistema de gestión integral y novedoso que las empresas pueden utilizar para sustentar una ejecución estratégica de vanguardia

*Evaluating Strategy* Patricia A. Patrizi, Michael Quinn Patton, 2010 Strategy has emerged as a watchword of modern change efforts Calls to be strategic are sounded in the private sector government philanthropy and the not for profit sectors Management experts stress the importance of strategic thinking Change agents are urged to act strategically Strategic planning has long been a mainstay of organizational development Leaders in all sectors talk not about theories of change or logic models but about being strategic Strategic thinking Strategic planning Strategic results Being strategic Strategy execution Effective strategies Adapting strategically And now evaluating strategy But strategy is a new unit of analysis for evaluation Traditionally evaluation has focused on projects programs products policies and personnel What does it mean to treat strategy as the evaluation focus as the thing evaluated What is strategy How does one evaluate strategy What are the implications of this new direction for evaluation theory methods practice and ultimately use This issue examines these questions and provides examples of strategy focused evaluations Evaluating strategy is not about evaluating strategic planning or even strategic plans It's about evaluating strategy itself Strategy is the evaluand That poses new challenges and offers new opportunities to meet the information needs of evaluation users For evaluation to be relevant to decision makers and leaders the focus of the evaluation must be on what they are concerned about and what they care about Increasingly they care about identifying and implementing effective strategies That's where evaluation enters the picture Evaluating strategy has the purpose of making strategy more effective differentiating effective from ineffective strategies and contributing to the ongoing development and adaptation of strategy in response to changing conditions and real world complexities Evaluating strategy is a new direction for evaluation one that is likely to take on increasing importance if evaluators learn to do it well This issue takes up that challenge This is the 128th volume of the Jossey Bass quarterly report series *New Directions for Evaluation* an official
