theoretical traditional silos such as national business systems social systems of production regulation theory or varieties of capitalism with limited dialogue between different approaches to enhance understanding of institutional effects Again evaluations of the relationship between institutions and employment relations have tended to be of the broad brushstroke nature often founded on macro data and with only limited attention being accorded to internal diversity and details of actual practice The Handbook aims to fill this gap by bringing together an assembly of comprehensive and high quality chapters to enable understanding of changes in employment relations since the early 1970s Theoretically based chapters attempt to link varieties of capitalism business systems and different modes of regulation to the specific practice of employment relations and offer a truly comparative treatment of the subject providing frameworks and empirical evidence for understanding trends in employment relations in different parts of the world Most notably the Handbook seeks to incorporate at a theoretical level regulationist accounts and recent work that link bounded internal systemic diversity with change and at an applied level a greater emphasis on recent applied evidence specifically dealing with the employment contract its implementation and related questions of work organization It will be useful to academics and students of industrial relations political economy and management *Introducing Employment Relations* Steve Williams,2017 The most trusted and thought provoking introduction to employment relations this book examines key employee relations issues from a critical perspective using contemporary research and a wealth of real life examples and carefully designed learning features

Research Methods in Labour Law Alysia Blackham,Sean Cooney,2024-08-06 This Handbook provides an accessible overview of the different methods approaches and theories which can be used to enrich labour law research Drawing on cutting edge research projects leading scholars present insights and reflections on the past present and future of labour law scholarship
