*INTERACTION DESIGN* Yvonne Rogers, Helen Sharp, Jenny Preece, 2011 A revision of the 1 text in the Human Computer Interaction field Interaction Design the third edition is an ideal resource for learning the interdisciplinary skills needed for interaction design human computer interaction information design web design and ubiquitous computing The authors are acknowledged leaders and educators in their field with a strong global reputation

They bring depth of scope to the subject in this new edition encompassing the latest technologies and devices including social networking Web 2.0 and mobile devices. The third edition also adds develops and updates cases, examples and questions to bring the book in line with the latest in Human Computer Interaction. Interaction Design offers a cross disciplinary practical and process oriented approach to Human Computer Interaction showing not just what principles ought to apply to Interaction Design but crucially how they can be applied. The book focuses on how to design interactive products that enhance and extend the way people communicate, interact and work. Motivating examples are included to illustrate both technical but also social and ethical issues making the book approachable and adaptable for both Computer Science and non Computer Science users. Interviews with key HCI luminaries are included and provide an insight into current and future trends. The book has an accompanying website [www.idbook.com](http://www.idbook.com) which has been updated to include resources to match the new edition. The ebook version does not provide access to the companion files.

Interaction Design Helen Sharp, Yvonne Rogers, Jenny Preece, 2007. The classic text Interaction Design by Sharp, Preece and Rogers is back in a fantastic new 2nd Edition. New to this edition: Completely updated to include new chapters on Interfaces, Data Gathering and Data Analysis and Interpretation, the latest information from recent research findings and new examples. Now in full colour. A lively and highly interactive Web site that will enable students to collaborate on experiments, compete in design competitions, collaborate on designs, find resources and communicate with others. A new practical and process oriented approach showing not just what principals ought to apply but crucially how they can be applied. The best basis around for user centered interaction design both as a primer for students as an introduction to the field and as a resource for research practitioners to fall back on. It should be labelled start here. Pieter Jan Stappers, ID StudioLab, Delft University of Technology.

**Interaction Design - Beyond Human-Computer Interaction, 2Nd Ed** Sharp, Rogers, Preece, 2008-11-28. The book includes a broad spectrum of topics including both the traditional paradigm e.g. one user interacting with a piece of software and new paradigms e.g. ubiquitous computing. Central to the book is the idea that design and evaluation are interleaving processes. The book is very hands on, process oriented, explaining how to carry out a variety of methods and techniques. What is interaction design? Understanding and conceptualizing interaction. Understanding users. Designing for collaboration and communication. Affective aspects. Interfaces and interactions. Data Gathering. Data analysis, interpretation and presentation. The process of interaction design. Identifying needs and establishing requirements. Design prototyping and construction. Introducing evaluation. An evaluation framework. Usability testing and field studies. Analytical evaluation.
