Advanced Human Resource Management Sajia Ferdous, 2025-03-03 *Advanced Human Resource Management* provides comprehensive practical guidance on understanding and implementing key strategies across various HR functions. This essential textbook for postgraduate and final year undergraduate students of HRM covers an expansive discussion on contemporary contexts, theories, and strategies for the various HR functions. From topics such as talent and performance management to managing diversity and maintaining sustainability, the book engages with how to apply different HR management approaches within organizations to achieve sustained competitive advantage. Features include: Analysis of the impact of HR strategies at the micro, meso, and macro levels of the organization; Considerations of legal and policy implications of HR practices for ensuring compliance; Evaluation of the effectiveness of HRM strategies across different organizational settings, including large and small organizations as well as public and private sectors; Self-assessment quiz questions relevant to case law and real-world examples.

Advanced Methods for Human Resource Management Research Paul Joseph-Richard, 2025-01-03 Understanding and applying research methods is a key skill in human resource management. This new textbook shows how to successfully complete a research project across the HR function. *Advanced Methods for Human Resource Management Research* provides a practice-based approach to planning and implementing research projects. Each chapter focuses on one HRM practice and a Method in Focus feature that shows how a particular method could be used for researching that practice. This enables postgraduate Research Methods students to gain an understanding of how research may be most effectively conducted for different aspects of HR, from recruitment and selection to people analytics, learning and development, sustainable HRM, and employee wellbeing. This book offers comprehensive guidance on what kinds of questions can be asked and the application of current designs and methods. Readers will learn how to conduct both qualitative and quantitative research, such as interviews and literature reviews, using Big Data, social media, and visuals, as well as creating cross-country designs to engage international participants. It is supported by learning outcomes, real-world examples, discussion questions, and ethical dilemma exercises to develop critical understanding of the material. Online resources include lecturer slides, annotated web links, further reading, and new reflective questions for students. This textbook is written for postgraduate HR students taking Research Methods modules as part of their degree.

Talent Management: An Instrument of Strategic Human Resources

Management? Ann-Christine Ehret,2015-11-17 Master s Thesis from the year 2014 in the subject Leadership and Human Resources Miscellaneous University of Plymouth language English abstract This study provides an investigation on Talent Management in German mid sized enterprises The purpose of this research is to explore whether Talent Management is an instrument usable to overcome external challenges such as demographic changes as well as a shortage in skilled labour to enhance organisational performance and to remain competitive The research determines that Talent Management can be seen as a part of strategic Human Resources Management and in this context as a high performance working system in order to develop motivate and empower talented employees Since empirical data in the national context of Germany are restricted on the one hand and on the other hand research efforts regarding Talent Management in small and medium sized enterprises are of less significance qualitative research methods were used in order to gather deeper insights Three in depth expert interviews were conducted providing valuable information regarding the conceptualisation and operationalisation of Talent Management in the context of German mid sized enterprises The findings reveal that what is of strong importance within small and medium sized enterprises in general is the expansion of the term talent to all employees and their skills and abilities instead of seeking for high potentials and so called A players Furthermore three significant characteristics of German companies being long term and developmentally orientated as well as providing dual vocational training to potential future employees have been identified These qualities underlie the highly specialised industries in which German medium sized enterprises operate skilled labour and development of these is of high importance Overall the dissertation concludes that Talent Management is recognised and implemented as an instrument of strategic human resources management within German medium sized enterprises Special focus is put on investment in the Human Capital as the development and retention of potential is of strong importance However due to limited financial budgets and less recognition of line managers Talent Management stands in its infancy The research recommends further studies in order to investigate the findings and limitations of this dissertation such as the empirically undetected field of Talent Management as a high performing system in national context or within small and medium sized enterprises
