

CLASSIC LIBERALISM

This ideology started in 1776 through Adam Smith. He advocated laissez-faire system, under which the government lets the economy alone. The motto of liberalism is: "That government is best that governs less." as stated by Thomas Jefferson.

CLASSIC CONSERVATISM

The best practices and institutions in history should be conserved, and change must be gradual. Our society needs standards of morality in order to contain the irrational passions of men.

MARXIST SOCIALISM

The advocate of this was Karl Marx. There are two classes: bourgeoisie or the capitalists, who owns the means of production and the proletariat are the majority who work for the elite class.

MODERN LIBERALISM

The government should step into the marketplace to guarantee the freedom to live an adequate level.

MODERN CONSERVATISM

This is the ideology that continues its allegiance to Adam Smith's original doctrine of minimal government.

SOCIAL DEMOCRACY

The social democrats use "welfare" to improve the living conditions of the people. However, welfare states have to impose high taxes in order to pay for welfare measures.

COMMUNISM

This is also known as Marxism-Leninism. It is focused on the proletariat rising up against the bourgeoisie.

NEOCONSERVATISM

A protest against the alleged excesses of the welfare state, which is perceived to encourage a class of poor people dependent on welfare, with little incentive to work.

FEMINISM

The ideology that the law should guarantee equality of treatment regardless of gender.

ENVIRONMENTALISM

The ideology that the people should live in balance with nature, rather than destroy it. The environmentalists call themselves "Green".

NATIONALISM

It has been described as exaggerated belief in the greatness and unity of one's country. The engine of nationalism is the passionate feeling that it is wrong to be ruled by others.

RELIGIOUS FUNDAMENTALISM

Political and social lives should be based on the original religious principles, which are supported by a belief in the literal truth of sacred texts.

COMMUNITARIANISM

It advocates the need to revive communities, as institutions between the state and the individual.

Contemporary Political Ideologies Roger Eatwell, Anthony Wright, 1999-03-01 This major new text critically assesses the key political ideologies of the 20th century The 1970s and 1980s witnessed a flowering of new and popular ideologies such as feminism and ecologism and a revival of others notably liberalism The upheavals of the early 1990s have initiated fresh debate amongst major thinkers on the nature of ideology much of it however hostile or polemical Modern Political Ideologies examines in an objective scholarly manner the evolution of key political ideologies and assesses their impact and development during the 20th century This volume is essential reading for all students of politics and indeed anyone who has an interest in current events and wishes to acquire a deeper understanding of the nature scope and ambition of different ideologies

Contemporary Political Ideologies Roger Eatwell, 2019-03-11 In everyday usage ideology tends to be a pejorative term synonymous with the dogmatic or fanatical This is not the sense in which the term is used in this book Nor does this book adopt the instrumental approach to ideology common among social scientists and Marxists which sees ideology as socially determined rather than as a body of relatively coherent and comprehensive beliefs of interest in their own right It is this last feature of ideologies which this book focuses on namely ideologies key assumptions and themes their intrinsic content This is not to deny that there are interesting questions to be asked about the social origins and role of ideologies However these questions would require a separate book to do them justice Moreover we live in an age of hyper change Suddenly in the last decade or so the ideologies which were in the ascendant in the early twentieth century seem to have entered terminal decline whilst other ideologies have been rejuvenated and newer ones have grown in force In general these changes have undermined the left more than the right though the rise of new ideologies throughout the twentieth century has helped show the weaknesses classifying ideologies by the traditional left right spectrum
