budgeting is an important part of the financial management of a business organization. It is a process that business houses use to evaluate an investment project. The decision of whether to accept or deny an investment project is capital budgeting decision. Capital budgeting is important because it determines the long term economic and financial profitability of any investment project. It lays down the future success of a business. Capital Budgeting aims to develop not only an understanding of the concepts of capital budgeting but also to provide its practical application to help students learn both theory and practice of capital budgeting used in the financial management of a business organization. It analyzes the capital budgeting practices of corporate enterprises in India in diverse sectors on comparative basis in order to provide the reader a better insight into the various issues and challenges regarding capital budgeting management. **Financial Management**

Practices in India Sandeep Goel, 2016-01-22 Efficient financial management is the essence of business. This book analyses and evaluates core financial management practices of corporate enterprises in India across diverse sectors including realty, FMCG, pharmaceutical, automobile, IT, chemical, and BPO sectors. It emphasizes the importance of the integrated process of capital investments, financing policy, working capital management, and dividend distribution for shareholders for a developing economy as India. It further highlights the need for financial viability both in totality and segmental performance. The volume also offers a comparative study of the practices of the companies in different sectors to allow a better appreciation of the issues and challenges regarding management of finances. Rich in case studies, this book will be an indispensable resource for scholars, teachers, and students of financial management, business economics, as also corporate practitioners. *Forthcoming Books* Rose Arny, 1997-12

Corporate Financial Analysis Diana R. Harrington, 1998 This text uses a direct, concise, no-nonsense approach to current financial concepts and techniques essential for understanding fundamental business decisions. Harrington uses current examples of actual business situations to demonstrate how financial tools, concepts, and theories can be used to create value through improved financial decision making. This edition adds a global emphasis with an equal number of domestic and international examples, as well as a discussion of international financial statements. **Cox & Hazen on Corporations** James D. Cox, Thomas Lee Hazen, 2003 Provides a comprehensive analysis of all areas of corporate law and the most significant provisions of the federal securities laws. Contrasting judicial and statutory approaches are examined in both a contemporary commercial context and historical evolution of law on each subject examined. P xxxi
