Said, 1997 In this classic work the author of Culture and Imperialism reveals the hidden agendas and distortions of fact that underlie even the most objective coverage of the Islamic world With a new foreword by Laleh Khalili No one studying the relations between the West and the decolonizing world can ignore Mr Said s work The New York Times Book Review From the Iranian hostage crisis through the Gulf War and the bombing of the World Trade Center the American news media have portrayed Islam as a monolithic entity synonymous with terrorism and religious hysteria At the same time Islamic countries use Islam to justify unrepresentative and often repressive regimes Combining political commentary with literary criticism Covering Islam continues Edward Said s lifelong investigation of the ways in which language not only describes but also defines political reality

Covering Islam Edward W Said, 2008-09-04 From the Iranian hostage crisis through the Gulf War and the World Trade Centre bombing the West has been haunted by a spectre called Islam As portrayed by the news media and by a chorus of government academic and corporate experts Islam is synonymous with terrorism and religious hysteria At the same time Islamic countries use Islam to justify unrepresentative and often oppressive regimes In this landmark work for which he has written a new introduction one of our foremost public thinkers examines the origins and repercussions of the media s monolithic images of Islam Combining political commentary with literary criticism Edward Said reveals the hidden assumptions and distortions of fact that underlie even the most objective coverage of the Islamic world

Unfolding Islamophobic Racism in American Fiction Humaira Riaz, 2022-12-19 Unfolding Islamophobic Racism in American Fiction presents Islamophobia as a manifestation of racism in literary texts to understand American perspective of Islam and Muslims By deconstructing selected literary works of Lorraine Adams John Updike and Don DeLillo within Fredrickson s notion of racism as scavenger ideology Humaira Riaz argues that fiction incorporates racism cloaked in Islamophobia The author concludes that necessitating interfaith community interaction may help in decreasing religious conflicts Many of the Western and American assumptions about Islam are generated from ignorance This work proposes a thorough discursive understanding of Islam as a code of life

Covering Islam Edward W. Said, 1981-05-01 Evaluates the American media's coverage of news stories concerning Islam and shows how misconceptions about the Middle East have been promoted

Going to Tehran Flynt Leverett, Hillary Mann Leverett, 2013-01-08 An eye opening argument for a new approach to Iran from two of America's most informed and influential Middle East experts Balanced sober impressively document and rich in insight a valuable antidote to the warmongering that passes for analysis of Iran and US Iranian relations Andrew J Bacevich author of Breach of Trust Less than a decade after Washington endorsed a fraudulent case for invading Iraq similarly misinformed and politically motivated claims are pushing America toward war with Iran Today the stakes are even higher such a war could break the back of America's strained superpower status Challenging the daily clamor of US saber rattling Flynt and Hillary Mann Leverett argue that America should renounce thirty years of failed strategy and engage with Iran just as Nixon revolutionized U S foreign policy by going to Beijing and realigning relations with China Former analysts in both the Bush and Clinton administrations the Leveretts offer a uniquely informed account of Iran as it actually is today not as many have caricatured it or wished it to be They show that Iran's political order is not on the verge of collapse that most Iranians still support the Islamic Republic and that Iran's regional influence makes it critical to progress in the Middle East Drawing on years of research and access to high level officials Going to Tehran explains how Iran sees the world and why its approach to foreign policy is hardly the irrational behavior of a rogue nation A bold call for new thinking the Leveretts indispensable work makes it clear that America must go to Tehran if it is to avert strategic catastrophe There is a whole slew of highly dubious assumptions and narratives about Iran that are rarely challenged in any meaningful way in media circles Going to Tehran is vital to thinking critically about these claims Because of their expertise and their long immersion in these issues the Leveretts and this book deserve a prominent voice in any serious debate about Iran Glenn Greenwald The Guardian Read this book You'll find a lot of information that's not generally available and valuable

insights that are sharply at odds with conventional views in the United States This book may help if it is widely enough understood to halt a very clear drift toward what could be a terrible war Noam Chomsky **Foreign Policy Challenges in the 21st Century** Michael Heazle, Martin Griffiths, Tom Conley, 2009 This book explores the emerging challenges to foreign policymaking in liberal democracies and the adequacy of the marketplace of ideas in responding to these challenges Looking at foreign policy challenges as diverse as democratization globalization and climate change from the role of values in environmental debate to the Iraq invasion and the war on drugs the contributors critically examine how key global issues are framed in public debate across three of the world's most mature liberal democracies the US the UK and Australia The book contributes to a better understanding of the limits of the marketplace of ideas in helping to produce wise and accountable policy and how those limits may soon be overcome Examining how key global issues are framed in foreign policy debate across a range of liberal democratic societies this book will strongly appeal to academics and students with an interest in international relations policymaking and politics as well as to governmental and think tank policymakers and advisors

Jesus in an Age of Terror James G. Crossley, 2008 This book applies the work of Noam Chomsky Edward Herman Edward Said and several others on international politics and the supportive role of the media intellectuals and academics to contemporary Christian origins and New Testament scholarship Part One looks at the ways in which New Testament and Christian origins scholarship has historically been influenced by its political and social settings over the past hundred years or so Moving on to the present the following chapter then applies Herman and Chomsky's propaganda model of manufacturing consent in the mass media to the recent explosion of biblical scholars writing on the internet in particularly biblio bloggers It is clear that political views in biblio blogging conform strikingly to the emphases that come through in Herman and Chomsky's analysis of the mass media and intellectuals particularly with the standard lines on the war on terror and views on the contemporary Middle East The rest of the book takes up modified key areas of the propaganda model in more detail Part Two looks at the Orientalist rhetoric of clashing civilisations and how this relates to the war on terror and the creation of Islam Arabs Middle East etc as the Great Enemy in the media and relevant intellectual thought since the 1970s and to use Derek Gregory's phrase hideously emboldened in the war on terror The next chapter then shows how this context has had a highly noticeable impact on the use of social sciences in New Testament and Christian origins scholarship in particular the stark generalisations of scholars using cultural social anthropology based on contemporary studies of the Middle East Disturbingly some of this scholarship has many rhetorical links with Anglo American foreign policy interests in the Middle East and beyond making some politically charged statements that cohere closely with recent intellectual defences of actions in Iraq Palestine and beyond Part Three looks at issues of Palestine and Israel in the media alongside Christian secular and relevant intellectual thought since the Six Day War of 1967 focusing in particular on the dramatic shift towards widespread support for Israel This also includes an analysis of the recent and controversial case of Nadia Abu el Hajs tenure

at Barnard The following chapter shows how this interest in Israel has had a profound impact on historical Jesus and Christian origins studies particularly the strange emphasis on Jewishness and misplaced allegations of antisemitism since the 1970s Despite the shift in support of Israel this is rarely done for love of Jews Judaism Israel or Israelis because there remains a notable cultural political and religious superiority in Anglo American scholarship While owing much also to an Orientalist tradition this too is strongly echoed in scholarship of Christian origins where for all the emphasis on the Jewishness of Jesus and the first Christians it is extremely common to find Jesus or the first Christians being better than Judaism or overriding key symbols of Judaism as constructed by scholarship done ironically by frequent ignoring of relevant Jewish texts The end results of contemporary scholarship are not dramatically different from the results of the anti Jewish and antisemitic scholarship of much of the twentieth century
