Administrative Side of Coaching Richard Leonard, 2008. Special topics: Industrial Marketing Mukerjee, 2009. MASTERING STRATEGY Jeffrey Rigsby, Guy Greco, 2003-01-08. Up to the minute examples of market leading companies and strategists in action. Strategy that is both creative and pragmatic is today's number one competitive edge. It has been the driving force behind the success of firms such as McDonald's and Microsoft and executives like Sam Walton and Jack Welch. *Mastering Strategy* examines best practices and examples from these and other companies, CEOs, and academics and details how executives can benchmark them to overcome new questions and problems in today's harder, faster, smarter world. From achieving market leadership to managing change, today's business leaders must not only stay atop the latest trends but also understand and improve the core issues that drive their organizations. By distilling scores of resources into one powerful volume, authors Jeffrey Rigsby and Guy Greco have produced a guidebook for creating new and exciting corporate strategy. Examples include Strategies of corporations such as Nike and Procter & Gamble, Insights of CEOs from Bill Hewlett to Ray Kroc, Wisdom of thought leaders from Warren Bennis to Robert Kaplan. *Politeia*, 2006. English and Afrikaans with abstracts in English. **Pensions at Work** Jack Quarter, Isla Carmichael, Sherida Ryan, 2008. Pension funds have come to play an increasingly important role within the new economy. According to Statistics Canada in 2006, trustee pension funds in Canada had 836 billion of assets and represented the savings of 4.6 million Canadian workers. *Pensions at Work* is a unique collection of papers that uses a labour perspective to deal with the socially responsible investment of pension funds. Featuring leading Canadian and international scholars, it builds on existing scholarship on socially responsible investment and on the growing interest of the Canadian labour movement in joint trusteeship. What is unique about this collection is that it synthesizes three

distinct themes socially responsible investment pension funds and labour studies The contributors address an array of critical issues such as gaps in the education of union trustees of pension funds the impact of human capital criteria on shareholder returns the influence of corporate engagement upon corporate performance and the nature of public private partnerships PPPs Although the essays in *Pensions at Work* all address the nexus between socially responsible investment pension funds and unions each looks at a particular manifestation of that relationship through a different disciplinary lens This collection moves the discussion to pension funds in which union representatives are also trustees a relatively new approach that will be of great interest to institutional investors the labour movement and instructors in labour studies programs
