Critical Perspectives In Food Studies:

Critical Perspectives in Food Studies Anthony Winson, Jennifer Sumner, Mustafa Koç, 2017 *Critical Perspectives in Food Studies* is a compelling examination of the shifting interpretations perspectives challenges governance issues and future visions that shape the study of food and food issues in Canada and around the world With new chapters on a diverse range of current food related issues this second edition continues to bring students original contributions by Canadian scholars that will inspire readers to consider the varied and complex means by which we bring food to the table **Critical perspectives**

in food studies Mustafa Koc, 2021 **Critical Perspectives on Veganism** Jodey Castricano, Rasmus R. Simonsen, 2016-09-13 This book examines the ethics politics and aesthetics of veganism in contemporary culture and thought Traditionally a lifestyle located on the margins of western culture veganism has now been propelled into the mainstream and as agribusiness grows animal issues are inextricably linked to environmental impact as well as to existing ethical concerns This collection connects veganism to a range of topics including gender sexuality race the law and popular culture It explores how something as basic as one's food choices continue to impact on the cultural political and philosophical discourse of the modern day and asks whether the normalization of veganism strengthens or detracts from the radical impetus of its politics With a Foreword by Melanie Joy and Jens Tuidor this book analyzes the mounting prevalence of veganism as it appears in different cultural shifts and asks how veganism might be rethought and re practised in the twenty first century **Critical**

Food Studies in Asia Arya Parakkate Vijayaraghavan, Dishari Chattaraj, 2024-10-30 This book offers a curated collection of scholarship that significantly contributes to the shaping of Critical Food Studies in Asia Drawing on a machine generated literature review of select Springer publications it highlights the critical turn in Food Studies rooted in the recognition that everyday social discourses surrounding food embody complex interrelations of power dynamics identity politics and ideological underpinnings The book maps out key conceptual frameworks methods and methodologies from various disciplines offering insights into the understanding and analysis of foodways and practices The editors introductions accompanying the structured reviews open up discussions on prominent trajectories frameworks and future research scope in the area making it an essential reference point for scholars educators and students alike It also initiates deliberations on the complexities of working within a heterogeneous space like Asia while exploring its potential to evolve newer frameworks and alternative knowledge systems to critically engage with gastronomic practices The auto summaries have been generated by a recursive clustering algorithm via the Dimensions Auto summarizer by Digital Science The editors of this book selected which SN content should be auto summarized and decided its order of appearance Please be aware that these are extractive auto summaries which consist of original sentences but are not representative of its original paper since we do not show the full length of the publication Please note that only published SN content is represented here and that machine generated books are still at an experimental stage [Routledge Handbook of Sustainable and Regenerative Food Systems](#) Jessica

Duncan, Michael Carolan, Johannes S.C. Wiskerke, 2020-08-13 This handbook includes contributions from established and emerging scholars from around the world and draws on multiple approaches and subjects to explore the socio economic cultural ecological institutional legal and policy aspects of regenerative food practices The future of food is uncertain We are facing an overwhelming number of interconnected and complex challenges related to the ways we grow distribute access eat and dispose of food Yet there are stories of hope and opportunities for radical change towards food systems that enhance the ability of living things to co evolve Given this activities and imaginaries looking to improve rather than just sustain communities and ecosystems are needed as are fresh perspectives and new terminology The Routledge Handbook of Sustainable and Regenerative Food Systems addresses this need The chapters cover diverse practices geographies scales and entry points They focus not only on the core requirements to deliver sustainable agriculture and food supply but go beyond this to think about how these can also actively participate with social ecological systems The book is presented in an accessible way with reflection questions meant to spark discussion and debate on how to transition to safe just and healthy food systems Taken together the chapters in this handbook highlight the consequences of current food practices and showcase the multiple ways that people are doing food differently The Routledge Handbook of Sustainable and Regenerative Food Systems is essential reading for students and scholars interested in food systems governance and practices agroecology rural sociology and socio environmental studies
