shape or should take shape in European institutions of higher learning The edited volume takes as a distinct approach to liberal arts and sciences education by focusing on the unique way in which core texts i e classic texts from philosophical historical literary or cultural traditions involving the best that has been written meet the challenges of modern higher education in general and in Europe in particular This approach is manifested explicitly in the second section that focuses on how specific core texts promote the goals of liberal arts and sciences education including the teaching methods curricular reflections and personal experiences of teaching core texts The edited volume is based on a selection of papers presented at a conference held in Amsterdam the Netherlands in September 2015 It is meant to impart the passion that teachers and administrators share about developing the liberal arts and sciences in Europe with the help of core texts in order to provide students with a well rounded formative and genuinely liberal education *The Christian Work and the Evangelist* ,1907
