Study Guide for Use with Financial Accounting Robert Libby, Patricia A. Libby, Daniel G. Short, 2003 Libby Libby Short wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text they considered career relevance as their guide when selecting material and the need to engage the student as their guide to style pedagogy and design. Libby Libby Short is the only financial accounting text to successfully implement a real world single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real world financial statements. The companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting.

Judgment and Decision Making in Accounting Sarah E. Bonner, 2008 This unique first edition is the only book on the market that delivers a contemporary synthesis of both psychology and accounting literature related to judgment and decision making. Judgment and Decision Making in Accounting is structured around an innovative framework that provides a unique way of thinking about JDM projects and organizing JDM research. Developed based on many years of teaching and research on accounting JDM, this unique framework succinctly describes the key issues in accounting JDM research, enabling readers to more quickly assimilate the vast material related to those issues. The framework also provides a basis to help readers evaluate their own current JDM research ideas as well as generate further research questions.
