

Comparing Time-Series Clustering Algorithms in R Using the dtwclust Package

Alexis Sardá-Espinosa

Abstract

Most clustering strategies have not changed considerably since their initial definition. The common improvements are either related to the distance measure used to assess dissimilarity, or the function used to calculate prototypes. Time-series clustering is no exception, with the Dynamic Time Warping distance being particularly popular in that context. This distance is computationally expensive, so many related optimizations have been developed over the years. Since no single clustering algorithm can be said to perform best on all datasets, different strategies must be tested and compared, so a common infrastructure can be advantageous. In this manuscript, a general overview of shape-based time-series clustering is given, including many specifics related to Dynamic Time Warping and other recently proposed techniques. At the same time, a description of the `dtwclust` package for the R statistical software is provided, showcasing how it can be used to evaluate many different time-series clustering procedures.

Keywords: time-series, clustering, R, dynamic time warping, lower bound, cluster validity.

1. Introduction

Cluster analysis is a task which concerns itself with the creation of groups of objects, where each group is called a cluster. Ideally, all members of the same cluster are similar to each other, but are as dissimilar as possible from objects in a different cluster. There is no single definition of a cluster, and the characteristics of the objects to be clustered vary. Thus, there are several algorithms to perform clustering. Each one defines specific ways of defining what a cluster is, how to measure similarities, how to find groups efficiently, etc. Additionally, each application might have different goals, so a certain clustering algorithm may be preferred depending on the type of clusters sought (Kaufman and Rousseeuw 1990).

Clustering algorithms can be organized differently depending on how they handle the data and how the groups are created. When it comes to static data, i.e., if the values do not change with time, clustering methods can be divided into five major categories: partitioning (or partitional), hierarchical, density-based, grid-based and model-based methods (Liao 2005; Rani and Sikka 2012). They may be used as the main algorithm, as an intermediate step, or as a preprocessing step (Aghabozorgi *et al.* 2015).

Time-series is a common type of dynamic data that naturally arises in many different scenarios, such as stock data, medical data, and machine monitoring, just to name a few (Aghabo-

This manuscript was last updated in version 5.5.0 of `dtwclust`. A summarized version was published in Sardá-Espinosa (2019).

Information Technologies and Intelligent Decision Making Systems Arthur Gibadullin, 2024-04-30 This book constitutes the refereed post proceedings of the Third International Scientific and Practical Conference on Information Technologies and Intelligent Decision Making Systems ITIDMS 2023 held in Moscow Russia during December 12 14 2023 The 18 full papers included in this book were carefully reviewed and selected from 54 submissions The papers presented in this volume focus on topics such as digital intellectual and information transformation the development of computer models and the improvement of automated and computing processes Advanced Data Mining and Applications Guojun Gan, Bohan Li, Xue Li, Shuliang Wang, 2018-12-28 This book constitutes the refereed proceedings of the 14th International Conference on Advanced Data Mining and Applications ADMA 2018 held in Nanjing China in November 2018 The 23 full and 22 short papers presented in this volume were carefully reviewed and selected from 104 submissions The papers were organized in topical sections named Data Mining Foundations Big Data Text and Multimedia Mining Miscellaneous Topics Sensing Technology Nagender Kumar Suryadevara, Bobby George, Krishanthi P. Jayasundera, Subhas Chandra Mukhopadhyay, 2023-04-08 This book gathers the latest advances innovations and applications in the field of sensing technology as presented by international researchers and engineers at the 15th International Conference on Sensing Technology ICST held in Sydney Australia on December 5 7 2022 Contributions include a wide range of topics such as vision sensing sensor signal processing sensors phenomena and modelling sensor characterization smart sensors and sensor fusion electromagnetic chemical and physical sensors electronic nose technology biosensors nano sensors wireless sensors and WSN Internet of Things optical sensors sensor arrays intelligent sensing Internet based and remote data acquisition The contributions which were selected by means of a rigorous international peer review process present a wealth of exciting ideas that will open novel research directions and foster multidisciplinary collaboration among different specialists Multi-disciplinary Trends in Artificial Intelligence Somnuk Phon-Amnuaisuk, Swee-Peng Ang, Soo-Young Lee, 2017-10-25 This book constitutes the refereed conference proceedings of the 11th International Conference on Multi disciplinary Trends in Artificial Intelligence MIWAI 2017 held in Gadong Brunei in November 2017 The 40 revised full papers presented were carefully reviewed and selected from 82 submissions They are organized in the following topical sections knowledge representation and reasoning data mining and machine learning deep learning and its applications document analysis intelligent information systems swarm intelligence Machine Learning and Knowledge Discovery in Databases Massih-Reza Amini, Stéphane Canu, Asja Fischer, Tias Guns, Petra Kralj Novak, Grigorios Tsoumakas, 2023-03-17 The multi volume set LNAI 13713 until 13718 constitutes the refereed proceedings of the European Conference on Machine Learning and Knowledge Discovery in Databases ECML PKDD 2022 which took place in Grenoble France in September 2022 The 236 full papers presented in these proceedings were carefully reviewed and selected from a total of 1060 submissions In addition the proceedings include 17 Demo Track contributions The volumes are organized in

topical sections as follows Part I Clustering and dimensionality reduction anomaly detection interpretability and explainability ranking and recommender systems transfer and multitask learning Part II Networks and graphs knowledge graphs social network analysis graph neural networks natural language processing and text mining conversational systems Part III Deep learning robust and adversarial machine learning generative models computer vision meta learning neural architecture search Part IV Reinforcement learning multi agent reinforcement learning bandits and online learning active and semi supervised learning private and federated learning Part V Supervised learning probabilistic inference optimal transport optimization quantum hardware sustainability Part VI Time series financial machine learning applications applications transportation demo track

Protein Kinases, 2021-12-08 For the past two decades the protein kinase family has been an intense area of research for developing anticancer drugs Despite tremendous advancements in kinase drug expansion many kinases are still unexplored As such this book includes research and review articles from experts that focus on protein kinase signalling pathways as a molecular drug target Chapters include illustrations and cover such topics as the mechanism of action and anticancer activity of protein kinase inhibitors on various cancer types They also discuss new opportunities challenges and future perspectives in the field

German Medical Data Sciences: Visions and Bridges
Rainer Röhrig, Antje Timmer, Harald Binder, Ulrich Sax, 2017-09-15 We live in an age characterized by computerized information but ubiquitous information technology has profoundly changed our healthcare systems and if not adequately trained to deal with it healthcare professionals can all too easily be overwhelmed by the complexity and magnitude of the data This demands new skills from physicians as well as novel ways to provide medical knowledge Selecting and assessing relevant information presents a challenge which can only be met by bridging the various disciplines in healthcare and the data sciences This book presents the proceedings of the 62nd annual meeting of the German Association of Medical Informatics Biometry and Epidemiology German Medical Data Sciences GMDS 2017 Visions and Bridges held in Oldenburg Germany in September 2017 The 242 submissions to the conference included 77 full papers of which 42 were accepted for publication here after rigorous review These are divided into 7 sections teaching and training epidemiological surveillance screening and registration research methods IT infrastructure for biomedical research data integration centers healthcare information systems interoperability standards terminologies classification and biomedical informatics innovative algorithms and signal processing The book provides a vision for healthcare in the information age and will be of interest to all those concerned with improving clinical decision making and the effectiveness and efficiency of health systems using data methods and technology

Digital Human Modeling and Applications in Health, Safety, Ergonomics and Risk Management. Human Body, Motion and Behavior Vincent G. Duffy, 2021-07-03 This two volume set LNCS 12777 and 12778 constitutes the thoroughly refereed proceedings of the 12th International Conference on Digital Human Modeling and Applications in Health Safety Ergonomics and Risk Management DHM 2021 which was held virtually as part of the 23rd HCI International

Conference HCII 2021 in July 2021 The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions DHM 2021 includes a total of 56 papers they were organized in topical sections named Part I Human Body Motion and Behavior Ergonomics human factors and occupational health human body and motion modeling and language communication and behavior modeling Part II AI Product and Service Rethinking healthcare artificial intelligence applications and ethical issues and digital human modeling in product and service design

Europe in the New World Economy: Opportunities and Challenges Luminita Chivu, Valeriu Ioan-Franc, George Georgescu, Ignacio De Los Ríos Carmenado, Jean Vasile Andrei, 2024-11-25 The transition from traditional economic patterns to a model marked by enhanced efficiency environmental responsibility and the adaptation to a new normal economic philosophy marks a pivotal moment in understanding Europe's economic ecosystem within the new world economy However the reliance on conventional economic philosophies has often overlooked the broader economic and social landscapes in which these paradigms operate This volume explores emerging research topics methodologies and techniques that are essential to understanding the global economy dynamics and growth patterns under crisis circumstances and persistent uncertainties Featuring contributions presented at the 2023 International Conference Economic Scientific Research Theoretical Empirical and Practical Approaches ESPERA held in Bucharest Romania in honor of the 50th Anniversary of the National Institute for Economic Research Costin C Kiritescu of the Romanian Academy this book offers theoretical and practical contributions as well as quantitative and qualitative analyses providing valuable inputs for the design of adequate strategies and policies aimed to address the future challenges and to capitalize on the emerged opportunities From sustainable development to digital innovation this book examines the dynamic landscape of European economics and underscores the significance of interdisciplinary approaches and technological advancements in fostering economic resilience and growth The contents of this book are of interest to scholars researchers students practitioners and policy makers in economics and business transformation

Comparing Time Series Clustering Algorithms In R Using The Introduction

In the digital age, access to information has become easier than ever before. The ability to download Comparing Time Series Clustering Algorithms In R Using The has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Comparing Time Series Clustering Algorithms In R Using The has opened up a world of possibilities. Downloading Comparing Time Series Clustering Algorithms In R Using The provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Comparing Time Series Clustering Algorithms In R Using The has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Comparing Time Series Clustering Algorithms In R Using The. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Comparing Time Series Clustering Algorithms In R Using The. Some websites may offer pirated or illegally

obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Comparing Time Series Clustering Algorithms In R Using The, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Comparing Time Series Clustering Algorithms In R Using The has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Comparing Time Series Clustering Algorithms In R Using The Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Comparing Time Series Clustering Algorithms In R Using The is one of the best book in our library for free trial. We provide copy of Comparing Time Series Clustering Algorithms In R Using The in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Comparing Time Series Clustering Algorithms In R Using The. Where to download Comparing Time Series Clustering Algorithms In R Using The online for free? Are you looking for Comparing Time Series Clustering Algorithms In R Using The PDF? This is definitely going to save you time and cash in something you should think about.
