Cosmetics products are created for application on the body for the purpose of cleansing, beautifying or altering appearance and enhancing attractive features. It is not similar like medicines in addition to it cannot be used to modify the physique function or performance. The cosmetic industry has witnessed rapid growth over the last couple of decades. Now a day the range of cosmetic and beauty products has widened tremendously. The use of cosmetics has increased exponentially not only among in females but the male population also indulges in their use. A wide range of chemical and natural materials is used in the formulation of cosmetic and toiletry preparations. Cosmetics like creams, gels, face powder, eye makeup, shaving cream, and colognes are used on a daily basis by both women and men. The Indian cosmetic industry has witnessed rapid growth over the last couple of decades. In that time the range of cosmetic and beauty products in India has widened tremendously. Beauty products manufacturers in India mostly cater to the great demand for cosmetics and toiletries that fall into the low or medium price categories as the greatest demand in India has always been for these economically priced products. Bearing a long glowing heritage of cosmetic and beauty, aesthetic makeup products is being used since olden days and nowadays it appear like a booming economy in India which would be the largest cosmetic consuming country in a next few decades. While the demand of beautifying substances are growing day by day, a large number of local as well as international manufacturers gradually extend their ranges and products in different provinces of India. Industry sources estimate a rapid growth rate of 20% per annum.

Some of the fundamentals of the book are regulation of cosmetic products, the relationship of cosmetic products to drugs, preservation of cosmetics, factors affecting preservation, organisms found in cosmetics, antiperspirants and deodorants, cleansing creams and lotions, baby toiletries, face powder manufacturing process, aerosol cosmetics, shaving preparations; soaps, creams, oils, and lotions, advantages and disadvantages of natural dyes, packaging cosmetic preparations, etc.

The book covers formulae, manufacturing processes of various types of cosmetics like antiperspirants and deodorants, cleaning creams, lotions, emollient creams, baby toiletries, face powder, eye makeup and many more along with testing methods. This book will be great asset to new entrepreneurs, existing units, technocrats and technical institutions.

Contents

1. Regulation of Cosmetic Products
Historical Development
Self-regulation
Regulation in the United States

Society for Testing and Materials,2004 Herbal Cosmetics Hand Book H Panda,2000-01-01 Herbal cosmetics are the
product of cosmetic chemistry a science that combines the skills of specialists in chemistry physics biology medicine and
herbs Since cosmetics are applied mostly to the skin hair and nails a brief description of the anatomy of these is desirable In
classifying herbal cosmetics it must be considered that the consumers of these preparations most of whom are girls and
women are more concerned with their physical than their chemical characteristics Now a days herbal cosmetic is occupying
more popularity than synthetic cosmetic So there is very good scope for new entrants because it has both domestic as well as
export market The present book contains formulae manufacturing processes of different herbal cosmetics like cosmetics for
skin nails hair etc It also covers analysis method of cosmetics toxicity and test method The book is very useful for new
entrepreneurs technologists professionals researchers and for those who are already in this field **The Spatula** Irving P.
Fox,1905
