Iran's Green Movement Navid Pourmokhtari, 2021-05-26 This book examines the emergence and development of the 2009 Green Movement in Iran. The approach emphasizes the context and the local and historical specificities in which mass oppositional movements arise, develop, and conduct their operations. Meanwhile, it foregrounds an account of multiple modernities that work to transcend modernist assumptions. The volume describes and analyzes the power modalities, disciplinary, biopolitical, and sovereign employed by the Islamic Republic to governmentalize the masses. Bearing a triangular methodology, the book consists of six semi-structured interviews with authorities and activists who participated in the pivotal events of that period, discourse analysis focusing on the Iranian constitution and the relevant government policy documents and speeches, and archival analysis. These provide the historical background, perspectives, and insights required to analyze and explicate the conditions responsible for the emergence of the Green Movement and to grasp how collective action was enabled and organized. Marking a particular historical phase in the development of a home-grown democracy in post-revolutionary Iran, the Green Movement is transforming the country's political landscape. This book is a key resource to students and scholars interested in comparative politics, Iranian studies, and the Middle East. **Iran Anoushiravan**

Performing Iran Babak Rahimi, 2021-08-26 The result of collaborative research from noteworthy dramatists and scholars, this volume investigates the dynamic relationship between culture, performance, and theatre in Iran. The studies gathered here examine how various forms of performances, especially theatre, have and continue to undergo change in response to shifting political and social settings from antiquity to the present day. The analysis in this book focuses on performance practices, examining drama, texts, rituals, plays, music, cinema, and drama technologies. This is done in order to show how Iran has been imagined through enactments and representations and reproduced through these performative actions. The book uses a wider definition of the concept of performance, offering analysis of a wide range of phenomena, including indigenous rituals such as the naqqali and taziye, and online performances by diaspora communities. throughout Iran's recent history. Throughout the reigns of the three regimes governing Iran since the eighteenth century—the Qajars, the Pahlavis, and the Islamic Republic—radically different from one another as they have been, the three themes of political autocracy, foreign intervention, and revolution have remained.
