Abstract

This article aims to reveal the existence of State madrasahs in Medan City as one of the Subsystems in the national Education System, the main focus is on the challenges of State Madrasahs to the global world. The research method used is a Qualitative Research Method using a Literature approach combined with field data, as for the source of information obtained through the Ministry of Religious Affairs of the City Medan by referring to EMIS data in 2021. The results showed that the State Madrasah in Medan City consisted of Ibtidaiyah Madrasah, Tsanawiyah Madrasah, and Aliyah Madrasah. The number of Public and Private Madrasahs in Medan City is not balanced, so many people are not accommodated to enter the State Madrasah. Related to global challenges, the State Madrasah in Medan City depends on the political will and policies of the Central Government, especially the Ministry of Religious Affairs of the Republic of Indonesia. More specifically, the challenge faced is that strategic efforts are needed to improve the ability of teachers to be more professional in the learning process.

Islamic Education Faces Global Challenges:

MUSLIM 5.0: Smart Islamic Education in the Age of Artificial Intelligence Dr. Elihami, S.Pd., M.Pd.I., 2025-08-23

This book emerges as a response to the rapidly evolving era of Society 5.0 in which digital technology particularly Artificial Intelligence (AI) is increasingly permeating all aspects of life. The presence of AI is not merely a technological phenomenon but also a moral, spiritual, and epistemological challenge that Islamic education must address wisely. The Muslim community, especially educators and thinkers, must not remain passive observers of this revolution; we must become agents of change, shaping the direction of technological development according to Islamic values. Through this book titled *Muslim 5.0: Smart Islamic Education in the Era of AI*, the author seeks to present visionary ideas that integrate advanced technology with the profound spirituality of Islam. The book offers not only practical approaches to the use of AI in education but also guidance on how AI can serve as a tool for *da'wah* Islamic propagation and character formation within a strong ethical and theological framework. Each chapter is systematically arranged to strengthen Islamic digital literacy, provide a deeper understanding of AI concepts and opportunities, and develop adaptive and transformative teaching methods. This work also presents critical reflections on the social and ethical implications of AI, complemented by case studies from Islamic educational institutions around the world, including contributions from local institutions such as UNIMEN and the Muhammadiyah network.
