## **Jean Bottaro:**

Holocaust Memory and Racism in the Postwar World Shirli Gilbert, Avril Alba, 2019-07-08 Traces the history of connections between Holocaust memory and the discourse of anti racism The Holocaust is often invoked as a benchmark for talking about human rights abuses from slavery and apartheid to colonialism ethnic cleansing and genocide Western educators and politicians draw seemingly obvious lessons of tolerance and anti racism from the Nazi past and their work rests on the implicit assumption that Holocaust education and commemoration will expose the dangers of prejudice and promote peaceful coexistence Holocaust Memory and Racism in the Postwar World edited by Shirli Gilbert and Avril Alba challenges the notion that there is an unproblematic connection between Holocaust memory and the discourse of anti racism Through diverse case studies this volume historicizes how the Holocaust has shaped engagement with racism from the 1940s until the present demonstrating that contemporary assumptions are neither obvious nor inevitable Holocaust Memory and Racism in the Postwar World is divided into four sections The first section focuses on encounters between Nazism and racism during and immediately after World War II demonstrating not only that racist discourses and politics persisted in the postwar period but also perhaps more importantly that few people identified links with Nazi racism The second section explores Jewish motivations for participating in anti racist activism and the varying memories of the Holocaust that informed their work The third section historicizes the manifold ways in which the Holocaust has been conceptualized in literary settings exploring efforts to connect the Holocaust and racism in geographically culturally and temporally diverse settings The final section brings the volume into the present focusing on contemporary political causes for which the Holocaust provides a benchmark for racial equality and justice Together the contributions delineate the complex history of Holocaust memory recognize its contingency and provide a foundation from which to evaluate its moral legitimacy and political and social effectiveness Holocaust Memory and Racism in the Postwar World is intended for students and scholars of Holocaust and genocide studies professionals working in museums and heritage organizations and anyone interested in building on their knowledge of the Holocaust and the discourse of racism

*Honest Patriots* Donald W. Shriver Jr., 2005-03-17 In *Honest Patriots* renowned public theologian and ethicist Donald W Shriver Jr argues that we must acknowledge and repent of the morally negative events in our nation s past The failure to do so skews the relations of many Americans to one another breeds ongoing hostility and damages the health of our society Yet our civic identity today largely rests on denials forgetfulness and inattention to the memories of neighbors whose ancestors suffered great injustices at the hands of some dominant majority Shriver contends that repentance for these injustices must find a place in our political culture Such repentance must be carefully and deliberately cultivated through the accurate teaching of history by means of public symbols that embody both positive and negative memory and through public leadership to this end Religious people and religious organizations have an important role to play in this process Historically the Christian tradition has concentrated on the personal dimensions of

forgiveness and repentance to the near total neglect of their collective aspects Recently however the idea of collective moral responsibility has gained new and public visibility Official apologies for past collective injustice have multiplied along with calls for reparations Shriver looks in detail at the examples of Germany and South Africa and their pioneering efforts to foster and express collective repentance He then turns to the historic wrongs perpetrated against African Americans and Native Americans and to recent efforts by American citizens and governmental bodies to seek public justice by remembering public injustice The call for collective repentance presents many challenges What can it mean to morally master a past whose victims are dead and whose sufferings cannot be alleviated What are the measures that lend substance to language and action expressing repentance What symbolic and tangible acts produce credible turns away from past wrongs What are the dynamics psychological social and political whereby we can safely consign an evil to the past How can public life witness to corporate crimes of the past in such a way that descendants of victims can be confident that they will never be repeated In his provocative answers to these questions Shriver creates a compelling new vision of the collective repentance and apology that must precede real progress in relations between the races in this country [Chaos Theory](#) Graham

Masterton,2011-07-01 A thriller from the master of suspense When stuntman Noah Flynn finds a strange medallion with what appear to be ancient cuneiform markings little does he suspect there will be disastrous consequences for those around him When the Arabic would be assassin of aid agency diplomat Adeola Davis turns out to have been wearing a similar medallion she and Noah join together to discover what this can all mean as the death toll continues to rise [IB World Schools](#)
