- This solution manual remains under construction. The current count is that 575 out of 695 problems in the text are solved here, including all problems through Chapter 5.
- At the moment, we have not confirmed the correctness of every single solution. If you find errors or have suggestions or comments, please send email to ryates@winlab.rutgers.edu.
- MATLAB functions written as solutions to homework problems can be found in the archive `mat_soln.zip` (available to instructors) or in the directory `mat_soln`. Other MATLAB functions used in the text or in these homework solutions can be found in the archive `mat_code.zip` or directory `mat_code`. The `.m` files in `mat_code` are available for download from the Wiley website. Two other documents of interest are also available for download:
