Jitney the holistic blues of Seven Guitars violence as history lesson in Seven Guitars and King Hedley II and ritual death and Wilson's female Christ The book offers an index of plays critics and theorists but not a subject index Nadel is chair of American literature and culture at the University of Kentucky

The Theatre of August Wilson Alan Nadel, 2018-05-17
The first comprehensive study of August Wilson's drama introduces the major themes and motifs that unite Wilson's ten play cycle about African American life in each decade of the twentieth century Framed by Wilson's life experiences and informed by his extensive interviews this book provides fresh coherent detailed readings of each play well situated in the extant scholarship It also provides an overview of the cycle as a whole demonstrating how it comprises a compelling interrogation of American culture and historiography Keenly aware of the musical paradigms informing Wilson's dramatic technique Nadel shows how jazz and particularly the blues provide the structural mechanisms that allow Wilson to examine alternative notions of time property and law Wilson's improvisational logics become crucial to expressing his notions of black identity and resituating the relationship of literal to figurative in the African American community The final two chapters include contributions by scholars Harry J Elam Jr and Donald E Pease

August Wilson Yvonne Shafer, 1998-01-26 Provides information on the work of a black American playwright best known for his play Ma Rainey's Black Bottom Offers plot summaries and critical overviews of six plays written between 1984 and 1996 and contains a chronology an overview of his life and career and a list of productions and credits Also includes an annotated bibliography of Wilson's dramatic publications as well as articles and interviews about him and an annotated secondary bibliography Annotation copyrighted by Book News Inc Portland OR

The Dramatic Vision of August Wilson Sandra Garrett Shannon, 1995 In The Dramatic Vision of August Wilson Sandra Shannon follows the playwright's path through each decade From the outset she considers how he uses poetry the blues Romare Bearden's art and other cultural artifacts to lead him to imagined sites of pain and resignation healing and renewal in the collective memory of black America It is in these places of defeat and victory Shannon demonstrates that Wilson creates drama as he excavates examines and reclaims the past Although Wilson diverts attention away from factual details and focuses on the human costs of family dislocation chronic unemployment or cultural alienation Shannon illustrates how fully the plays are grounded in credible historical contexts from slavery and Emancipation to the aftermath of World War II the 1960s and the Vietnam War Moreover she identifies and analyzes the themes that recur in some plays and branch off in new directions in others including the dislocations that attended black migration to the North and communication gaps between black men and women As she examines each of the plays in Wilson's dramatic history of the African American experience Shannon conveys the broad range of his dramatic vision
