questions on the dangers of displacing policy goals questions on transferring government activities to specialized agency questions on decentralizing powers to regional and local governments questions on combating corruption and questions on managing public resources It is widely recognized that policy implementation is much more challenging than its design Nonetheless it is the manner in which public administrators address these challenges that creates opportunities for a more effective long term policy prioritization design and coordination a more effective and inclusive public governance and a more effective use of public resources for the delivery of needed public services
