Processing A Programming Handbook For Visual Designers And Artists:

Processing Casey Reas,Ben Fry,2007 An introduction to the ideas of computer programming within the context of the visual arts that also serves as a reference and text for Processing an open source programming language designed for creating images animation and interactivity

Processing Casey Reas,Ben Fry,2014 [Graphic Design](#) Ellen Lupton,Jennifer Cole Phillips,2008-05 This guide aims to move students away from a cut and paste mentality and refocus design instruction on the fundamentals of form starting from such basics as point and line in a critical rigorous way informed by contemporary media theory and software systems

Design Games for Architecture Aaron Westre,2013-10-08 Design Games for Architecture teaches you how to create playful software tools based on your architectural design processes whether or not you are familiar with game design technology The book combines the fun and engaging aspects of video games to ease the sometimes complex process of learning software development By working through exercises illustrated with screen shots and code you acquire knowledge about each step required to build useful tools you can use to accomplish design tasks Steps include analysing design processes to identify their logic translating that logic into a collection of objects and functions then encoding the design procedure into a working software tool Examples presented in the book are design games tools that a designer plays like video games that span a wide range of design activities These software tools are built using Unity free innovative and industry leading software for video game development Unity speeds up the process of software creation offers an interface that will be familiar to you and includes very advanced tools for creating forms effects and interactivity If you are looking to add cutting edge skills to your repertoire then Design Games will help you sharpen your design thinking and allow you to specialize in this new territory while you learn more about your own design processes

Paradigms in Computing David Jason Gerber,Mariana Ibanez,2015-01-01 Paradigms in Computing Making Machines and Models for Design Agency in Architecture brings together critical theoretical and practical research and design that illustrates the plurality of computing approaches within the broad spectrum of design and mediated practices It is an interrogation of our primary field of architecture through the lens of computing and yet one that realizes a productive expanding of our m tier s definition and boundaries It is a compilation that purposefully promotes architecture s disciplinary reach and incorporations beyond the design and construction of buildings and cities The book offers a glimpse into the wide range of positions and experiences that are shaping practice and discourse today The work included in Paradigms in Computing is evidence that models for enquiry are many and proliferating As digitalization and computation continue to infuse our processes with new tools and new design environments some of the trends collected in this book will continue to be central to the production and speculation of architecture and others will in retrospect be recognized as the seeds of new or perhaps multiple paradigms Included are essays and projects from Alisa Andrasek Rachel Armstrong Philip Beesley Tom Bessai Shajay Bhooshan Brad Cantrel Matias Del Campo Pablo Eiroa Marc Fornes David Jason Gerber Maria Paz Gutierrez
