## Hydraulic Regenerative Braking System:

**Combined Hydraulic and Regenerative Braking System**, 1981 A combined hydraulic and regenerative braking system and method for an electric vehicle with the braking system being responsive to the applied hydraulic pressure in a brake line to control the braking of the vehicle to be completely hydraulic up to a first level of brake line pressure to be partially hydraulic at a constant braking force and partially regenerative at a linearly increasing braking force from the first level of applied brake line pressure to a higher second level of brake line pressure to be partially hydraulic at a linearly increasing braking force and partially regenerative at a linearly decreasing braking force from the second level of applied line pressure to a third and higher level of applied line pressure and to be completely hydraulic at a linearly increasing braking force from the third level to all higher applied levels of line pressure

The 8th International Conference on Advances in Construction Machinery and Vehicle Engineering Saman K. Halgamuge, Hao Zhang, Dingxuan Zhao, Yongming Bian, 2024-06-28 This open access book presents select contributions from the 8th International Conference on Advances in Construction Machinery and Vehicle Engineering ICACMVE 2023 focusing on the recent advances and best practices of Construction Machinery and Vehicle Engineering related technologies and sciences to meet the challenges in mechanical design mechanical control and smart manufacturing The contents focus on design engineering automation in engineering construction machinery intelligence applications new energy and others Some of the topics discussed here include advanced manufacturing technologies industrial engineering and automation design of mechanical systems control engineering automobile engineering performance analysis of energy systems thermal modelling and simulations of different systems optimization and intelligence The wide range of topics presented in this book will be useful for beginners researchers and mechanical engineering professionals
