Comparative Politics In Transition 7th Edition:

Comparative Politics in Transition John McCormick, 2012-01-01 The Seventh Edition of COMPARATIVE POLITICS IN TRANSITION combines a thematic framework with a country by country approach to provide a thoughtful and effective introduction to Comparative Politics that is appropriate for students new to the study of political science The author uses an arenas classification to organize and frame the systematic comparative analysis rather than the traditional three worlds framework This classification more accurately reflects the contemporary political economic and social realities of different political systems allowing the author to provide historical theoretical and conceptual background through ten in text country case studies Unlike most other comparative politics texts McCormick provides a balanced study of the Western and non Western world and explores the politics and government of Islam and of failed states Important Notice Media content referenced within the product description or the product text may not be available in the ebook version **Comparative**

Politics in Transition John McCormick, 1994-12-01 **Decolonisation after Democracy** Laurence Piper, 2020-05-21 Decolonisation after Democracy addresses the provocative idea that we need to rid higher education of lingering forms of colonial knowledge This matters because in the colonial era much knowledge was put to the service of subjugating indigenous peoples and the assumptions from this era may linger into the present Examples of deep rooted and foundational forms of knowledge that carry colonial traits are normative binaries such as civilised and backward modern and traditional and rational and superstitious In addition some accounts of positive values like freedom equality justice and democracy may hide the assumption that the western experience is the norm from which other kinds are rendered imitations deviations or pathologies In this collection some of South Africa s leading political scientists and academics engage with the challenge of decolonising knowledge in the research and teaching of politics It includes new insights about the state international relations clientelism statesociety relations and land reform and introduces new ways to engage the colonial library curriculum reform and the marginality of historically black institutions Finally the contributors deal with the decolonial challenge posed by the FeesMustFall student movements reflecting on issues of revolutionary politics and gender and sexual violence This book was originally published as a special issue of *Politikon* Comparative Politics Bernard Edward Brown, 2000 This anthology features a mix of classic and contemporary essays providing an overview of tested theories and 21st century trends in comparative politics *Comparative Politics* Gregory S. Mahler, Donald J. MacInnis, 2002 This text is appropriate for comparative politics world politics and global politics courses taught at the university level The Canadian edition of *Comparative Politics An Institutional and Cross National Approach* provides students and instructors with a balance of the theoretical institutional and polity specific approaches Emphasis is placed on political institutions because of their ease of comparison their facility of identification and classification and the extent to which they lend themselves to analysis *Comparative Politics* gives students both the tools and the perspective to undertake a meaningful cross national

Democratization And The Islamist Challenge In The Arab World Najib Ghadbian,2019-03-13 The rise of Islamic movements in the Arab world over the last decade coincided with a move toward democratization throughout the region yet after hopeful early signs progress toward democratization has stalled or has even been reversed in all but a few countries This book explores the linkages between the move to democratize and the Islamist challenge focusing on the struggle among ruling elites secularists and the Islamists to define collective identity that is to define what common orientations unite the polity and how disagreements can be addressed particularly regarding the place of Islam in politics The author surveys democratization measures since 1980 and analyzes the nature of the Islamist challenge exploring the factors behind the rise of fundamentalism the agendas of various Islamic movements and Islamist concepts of democracy In a final section the author offers in depth case studies of Egypt and Jordan *Introduction to Comparative Politics* ,2016 **Comparative Politics** Roy C. Macridis,Bernard Edward Brown,1990 This book should be of interest to undergraduate courses on international politics **Canadian Parties in Transition** Brian Tanguay,Alain Gagnon,1996 *Anonymous Power* Okechukwu Ibeanu,Israel 'Kelue Okoye,Ikenna Mike Alumona,Ernest Tooche Aniche,2022-01-28 This book examines the structures and processes of political decision making and governance in Nigeria Since Nigeria returned to elected government in 1999 it has been observed that several factors account for the differences between the design of statutory structures and processes of political decision making and how they operate in reality In other words there are wide gaps between statutes and practice of political decision making However the nexus between the two remains largely understudied by political scientists Instinctively political scientists assume that informal influences in political decision making are aberrations episodic or temporary This book is designed to interrogate the nexus between the formal and non formal dimensions of the dynamics of political decision making in Nigeria and also provide evidence about the actual functioning of governmental structures in Nigeria The thesis of the book is that the non formal dimension of political decision making as evidenced in rising ethno political patronages religious sentiments clientelism and factionalism are interacting with formal decision making structures in ways that largely undermine the latter and by extension the democratic system The book pursues this thesis by examining the roles of actors and institutions including electoral choices made by voters legislations which perhaps is the most fundamental form of political decision making policies made by the executive and administration as well as decision making within political parties since parties are sites for articulating and aggregating issues on which

decisions are to be made **Transitional Justice after Clean Breaks** Filipa Raimundo,Joana Rebelo Morais,2024-10-08 This book intricately intertwines institutional and attitudinal factors elucidating the window of opportunity for reckoning with the past While spotlighting Portugal as a unique case study the book probes how the emergence of norm breaking parties along with the end of old stigmas and biases may rekindle transitional justice debates **Biographical Directory** American Political Science Association,2001 *Centennial Biographical Directory of Members* American Political Science Association,2001 The Publishers' Trade List Annual ,1985 The Cumulative Book Index ,1995 A world list of books in the English language **Latin America since Independence** Thomas C. Wright,Robert L. Smale,2022-08-03 This book offers an innovative thematic approach to the history of Latin America since independence It traces continuity and change in colonial legacies that became central political issues following independence authoritarian governance a rigid social hierarchy based on race color and gender the powerful Roman Catholic Church economic dependency and the large landed estate Generally liberals have sought to modify or abolish these legacies in the interest of what they consider progress while conservatives have attempted to preserve them as much as possible as bastions of their power and privilege Examining the evolution of these colonial legacies across two centuries reveals the processes that formed the political systems economies societies and religious institutions that characterize Latin America today Citizen Support for Democratic and Autocratic Regimes Marlene Mauk,2020-04-30 Citizen Support for Democratic and Autocratic Regimes takes a political culture perspective on the struggle between democracy and autocracy by examining how these regimes fare in the eyes of their citizens Taking a globally comparative approach it studies both the levels as well as the individual and system level sources of political support in democracies and autocracies worldwide The book develops an explanatory model of regime support which includes both individual and system level determinants and specifies not only the general causal mechanisms and pathways through which these determinants affect regime support but also spells out how these effects might vary between the two types of regimes It empirically tests its propositions using multi level structural equation modeling and a comprehensive dataset that combines recent public opinion data from six cross national survey projects with aggregate data from various sources for more than 100 democracies and autocracies It finds that both the levels and individual level sources of regime support are the same in democracies and autocracies but that the way in which system level context factors affect regime support differs between the two types of regimes The results enhance our understanding of what determines citizen support for fundamentally different regimes help assessing the present and future stability of democracies and autocracies and provide clear policy implications to those interested in strengthening support for democracy and or fostering democratic change in autocracies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political
